FIRST EDITION.

MIDNIGHT.

CHURCH COURT.

Trial of Rev. C. E. Cheney, of the Episcopal Church, at Chicago, for Violation of Church Rules—The Court Suddenly Interrupted by an Injunction.

[By Telegraph to the Pittsburgh Gazette.]

CHICAGO, July 22.—The Ecclesiastical Court engaged in the trial of the Rev. Charles Edward Cheney, rector of Christ Church, for a violation of the canons of the Protestant Episcopal Church in omitting the word "regenerate" in the rite of infant baptism, assembled this morning at 9:30, in the Cathedral of Saints Peter and Paul. After religious exercises the President announced that the exceptions taken yesterday afternoon by the counsel for the accused, and which had been held for advisement at adjournment, were overruled.

Mr. Thompson asked the reason for such decision.

Mr. Otis thought such a requirement an unusual proceeding, and on his request the Court propounded the question:

Rev. Charles E. Cheney, are you guilty or not guilty?

Mr. Thompson—Guilty of what?

The Court—Guilty of the charges contained in the presentment.

Mr. Thompson—The charges are so incongruous and imperfect that our client makes no response to this question.

Mr. Otis—Then, in accordance with the proceeding as laid down in the canons, I would ask that the defendant be considered as pleading not guilty, and that it be so recorded,

Mr. Thompson—Then, if the Court be determined to proceed with the trial, we would ask what time the Court will appoint for such trial. He then proceeded to read from the canon, which requires that not less than twenty days shall be allowed for such cases, and claimed that such would be but a reasonable notice outside the canon. By right and justice he held that a time and a place be now fixed, not less than twenty days from this date.

Mr. Otis—Our canons provide that notice of trial shall be served upon the person to be tried with all due haste, and we are able to show that proper and required notice has been given defendant in the present trial. If any further time is required to subpœna witnesses, the Bishop should have been applied to before or at the opening of the trial. I ask that the Court overrule the objections.

Mr. Thompson—We do not complain, nor have we during the assembly of the court, that we are not prepared to conduct the trial at this time. I simply stated what I considered to be a proper construction of the canon as regards the matter of time. On yesterday we first tried to show, in perfect good faith, that the jurisdiction of the Court was not canonical; 2d, our right to examine presbyters who sit as jurors on this case. We then filed our papers and made our defense of protest, founding our argument upon the decisions and opinions of those men who have been among the highest authorities in matters of law. The counsel on the other side treated all these things lightly and they were ignored by the Court. We then objected to the specifications and charges, in the same good faith. In each and every case we have been treated with a cold "no." I wish to ask if we are to be treated with fairness in this matter?

Mr. Otis—I must suggest that the gentleman is out of order in accusing the Court of unfairness, but the Court is able to defend itself.

The Court (after consultation with assessors)—The Court must defend itself from such language and will be obliged to call the gentleman to order.

Mr. Thompson—May it please the Court, nothing disrespectful was intended, and I simply intended to ask a question.

After an absence of ten minutes the Court came in and the President announced that the objections had been overruled, they being considered insufficient.

Mr. Fuller then rose and said: We have, up to this time, presented such objections as we had to the jurisdiction and to the various papers that have been laid before you and to the Court of which you are the presiding officer, until we have reached the point at which we shall go no farther. I have applied to the Superior Court of Chicago for an injunction, which has been granted, against all farther proceeding, in this case. We have determined that if our client was smitten, it shall not be contrary to law, and we have been compelled to pursue this course. The Sheriff of Cook county, who is present, will serve the gentlemen whom he will find named in the writ.

The Sheriff of Cook county, Gustav Fischer, then proceeded to serve the writs in due form, his entrance being greeted with loud and continued applause by the audience, thus giving unmistakable evidence of the sympathies of a large majority of it. As soon as able to be heard, the President commanded order, and said that if such demonstration should again occur he would order the house cleared.

After the injunction had been served, the Court retired for consultation, and on returning, shortly after eleven o'clock, announced that an adjournment would be had until two o'clock to-morrow, and the Court accordingly adjourned.

MISSISSIPPI.

The Yerger Trial Concluded—The Dent Conservative Movement.

(By Telegraph to the Pittsburgh Gazette.)

JACKSON, July 22.—The trial of Yerger, before the Military Commission, was concluded to day, but the verdict is not known.

After the trial was concluded Yerger was brought before Judge Hill, of the United States Circuit Court on a writ of *habeas corpus*. Judge William Yerger, on behalf of the prisoner, submitted a plea, to which the Judge Advocate, Col. Thos. F. Barr, submitted a return, and Yerger was remanded to military custody, the points involved having been passed upon by Judge Hill with the same result. The case will next be heard from in the Supreme Court.

JACKSON, July 22.—The Dent movement is supported by the press of the State, and he will receive the support of the conservatives of all parties.

NEW YORK CITY.

Defaulting Insurance Secretary—After a Pirate—Railroad Stock Difficulty Settled—Fenian Wrongs—Roebling, the Bridge Engineer, Dead—Fire in Brooklyn, &c.

(By Telegraph to the Pittsburgh Gazette.)

NEW YORK, July 22, 1869.

Frank W. Ballard, for nearly three years Secretary of the Security Insurance Company, is a defaulter to the amount of $63,000. Speculating in Wall street with the company's funds is the cause of the defalcation.

It is stated that the United States steamer Seminole, which left Norfolk recently on a secret expedition, has been cruising in Haytian waters for the capture of the Haytian privateer Hero, which has been preying on American commerce in those waters. She is to be captured and taken to Washington.

Col. Warner, the Fenian, and J. D. O'Connell waited on Secretaries Boutwell and Robeson and Attorney General Hoar, yesterday, and told them of the wrongs inflicted upon Fenian prisoners in England. They intend to lay the matter individually before every member of the Cabinet. The Attorney General was not at all gracious to them, and intimated that the invaders of Canada were a set of thieves and robbers.

The *Express* says the Toledo and Wabash difficulties have been amicably adjusted and all suits withdrawn. The Company will only issue one million new stock instead of four millions, this stock to be equally divided between contending parties represented by Jay Gould and A. Boody.

John A. Roebling, the well-known bridge engineer, died to-day from lockjaw, occasioned by his foot being crushed while surveying grounds for the East river bridge.

Crabbie's Wine Factory, Eagle Lead Pencil Company's Works and Barnard's Hoop Skirt Factory, all in one building, in Brooklyn, were burned to-day. Loss $15,000.

Lawrence Conners, hurt by the fall of the arch of a Catholic church in Hudson, yesterday, died to-day.

R. D. Bogars, the defaulting Naval Paymaster, arrived to-day from Galveston in custody of a Marshal. He will be tried in September.

A man named Quinn is now thought to be the murderer of watchman Lawrence of the Hoboken ferry. Quinn has fled.

The Cuban patriots at Fort Lafayette will probably be released to-morrow.

Daniel Kelly has been arrested for killing his father yesterday, while indulging in a family quarrel.

The emigrant ship Admiral, from Bremen, arrived to-night with a large number of cases of small-pox on board. No deaths have yet occurred.

A fire occurred this evening at No. 75 Mercer street, occupied by M'Bride & Co., dealers in hats, caps and fur goods, and who sustained a loss of $10,000. The building, owned by T. B. Crippins, was damaged $3,000.

The Grand Army of the Republic, Department of New York, which has been in session here for the past two days, before final adjournment this afternoon passed resolutions expressing sympathy with the Cuban patriots.

CALIFORNIA.

Republican State Convention—Nominations—Resolutions Adopted.

By Telegraph to the Pittsburgh Gazette.]

SAN FRANCISCO, July 22.—The Republican State Convention nominated Lorenzo Sawyer and O. C. Pratt for Judges of Supreme Court. Also adopted resolutions. The first pledges the support of the party to and endorses the acts of Grant's administration. The second asserts that the negro question has ceased to be an element of American politics and that the ratification of the Fifteenth Amendment should be followed by an act of universal amnesty and enfranchisement of the Southern people. The third regards with satisfaction the increased immigration to this State from the Atlantic States and Europe; but while giving preference to the people of our own race, holds inoffensive emigrants from China entitled to the full protection of the law; opposes Chinese suffrage in any form and any change in the naturalization laws of the United States. The fourth recognizes the power of the General Government to restrict or prevent Chinese immigration, by terminating our commercial relations with China; but believes the closing of our ports at present against the Chinese would be injurious to the material interests of the coast, a reproach upon the intelligence of the American people, and contrary to the spirit of the age. The fifth approves the eight-hour law. The sixth endorses the action of Congress rejecting the Alabama treaty, and considers it the duty of the General Government to demand full reparation for the injury inflicted by the British Government and people upon our commerce during the late rebellion. The seventh favors the equalization of taxation on all kinds of property in the State. The eighth opposes grants of State aid to railroads.

Latest from Cuba.

[By Telegraph to the Pittsburgh Gazette.]

HAVANA, July 22.—Two citizens of the United States, named Puntado and Cablas, who have been in prison since February, and Senor Gutierrez, a Mexican, have been released through the intercession of the American Consul General.

The splendid Alademas mansion in this city, confiscated by the government, has been turned into a Casino for officers of the volunteers.

The total number of estates belonging to rebels which have been embargoed by the Government up to the present date is 1,200.

Advices from Fernando Po represent that the Cuban prisoners there are in good health.

Annual Fenian Festival.

BUFFALO, July 22.—The annual Fenian festival at Clinton forest, to-day, was a grand demonstration. The military and civic organizations of the Brotherhood paraded the streets in the morning with music and banners, and an immense crowd was present at the grove in the afternoon, where speeches were made by Mr. Gibbons, of Philadelphia, and others. All the elevators in the city and several other businesses were suspended to enable employes to participate in the celebration.

SECOND EDITION.

FOUR O'CLOCK, A. M.

NEWS BY CABLE.

The Crisis in England—Protracted Cabinet Councils Over the "Dead Lock" in Parliament—Further Consideration of the Irish Church Bill in the House of Lords—A Compromise Accepted—The Times on Outrages in Ireland—The Political Situation in France—Uneasiness in Spain—Another Dreadful Colliery Explosion—Thirty Persons Killed Outright and Sixty Wounded.

[By Telegraph to the Pittsburgh Gazette.]

GREAT BRITAIN.

LONDON, July 21.—The Cabinet Council this afternoon was unusually protracted and did not break up until a late hour. No definite result was arrived at. The final discussion and future course of the Ministry is reserved until to-morrow, when another meeting will be held. The latest rumors afloat are that the Government will make one last offer for a compromise before it resorts to extreme measures by the withdrawal of the bill. Lords Clarendon, Granville and others, it is said, made earnest appeals for moderation, urging the revolutionary sentiment of the masses. At the present moment, notwithstanding the petitions of the Ministry, a conflict between the Peers and the people is inevitable. The crisis will be delayed only from knowledge of the momentous character of the undertaking. It is rumored a disruption of the Cabinet may ensue.

Midnight.—The die is cast and the struggle has begun. The Lords and the country have finally came to an issue in consequence of the abrupt termination of the debate last night. Intense excitement prevailed among political circles during the day. The Cabinet has been in session all afternoon, and a report is afloat that great dissension exists in the Council.

Messrs Gladstone, Bright, Lowe, and all the strongest members insist on the immediate withdrawal of the Irish Church Bill, on the ground of the obstinate resistance of the Peers to the principles, which renders a direct conflict between the two Houses of Parliament inevitable.

Some members of the Cabinet, Lord Clarendon among the number, advised more moderate proceedings, such as letting the bill take its course, and only abandoning it at the last moment. The insulting language used by Mr. Salisbury towards Mr. Gladstone, joined to the large majority cast against the preamble, however, shows that all attempts to effect a compromise are useless. There is little doubt that Mr. Gladstone will carry his point of withdrawing the bill immediately. This will be followed by a speedy adjournment, the calling of another session in August and creating a large batch of new Peers, sufficient in number to overcome the present Tory majority.

Placards have been posted on the walls to-day, headed "Shall the People or the Lords Rule," and calling a mass meeting at Arundel Hall for to-morrow. This will be followed by a monster open air demonstration. A rumor is afloat that the Duke of Cambridge has openly expressed his indignation at the radicalism shown by the Ministry, and he hopes that the Queen will refuse to sanction the coercion of the Peers.

The present crisis promises well to open the ball to sweeping reforms in England, commencing with the virtual destruction of hereditary legislation.

LONDON, July 22.—The *Times* says the Ministry resolved to preserve the Irish Church bill in spite of the majority against it in the House of Lords. The conclusion is, the differences between the Houses in respect to the preamble and the sixty-eighth clause do not offer insuperable obstacles to the passage of the bill.

LATER—A COMPROMISE.

LONDON, July 22.—In the House of Lords to-night there was a full attendance of Peers and spectators, and many members of the House of Commons were present. The consideration of the amendments to the Irish Church Bill was resumed. Earl Granville opened the debate by stating that Her Majesty's Ministers regarded the vote of Tuesday night as one of a very grave character, but they were unwilling to prevent consideration of the other amendments to the bill, and were anxious to conduct the discussion on a spirit of peace and conciliation. He proposed to insert the original date of disestablishment, namely, January 1st, 1871, but should not insist on a division of the House. If the motion was contrary to the feeling of the House he would withdraw it.

Lord Cairns said since the adjournment he had had a conference with Earl Granville. He (Lord Cairns) thought the amendments remaining few and capable of solution. He was glad to find that Earl Granville was actuated by a similar spirit. Nothing could be more culpable on either side than to encourage or protract the controversy on a measure of this kind, where materials for a solution were at hand. With that view and that sentiment everything which took place at the Conference accorded. He agreed that the question of date was of secondary importance, and declared that he was ready to accept the original. He advised the Lords not to insist on their amendments in regard to curates, ecclesiastical residences, or the commutation of annuities. The question with respect to the disposition of the surplus might be left over, but power should be given to Parliament to apply a portion of the fund to the alleviation of unavoidable calamity.

Lord Cairns concluded by admitting that he still had strong objections to the bill, but if it was to pass at all, it was not for the interests of the country or Church to prolong the struggle on minor details.

The Marquis of Salisbury, Earl Russel and other leading Peers accepted the compromise and praised the conduct of Lord Cairns in the present emergency.

The motion for the restoration of the original date of disestablishment was agreed to, and other amendments were disposed of according to the terms of the compromise. Clause 68th was altered so that none of the surplus shall be applied without the separate and distinct sanction of Parliament.

The Earl of Bendon and the Bishop of Tuam protested against the compromise.

Earl Granville thanked Lord Cairns for the frankness with which he had entered into confidential communication with the Government, in order to smooth down the difficulties in the way of the bill.

LONDON, July 22.—The *Times*, alluding to the recent agrarian outrages in Ireland, says: "Centuries of misrule have planted perverse views in the Irish peasant's breast, which must disappear under benificent and enlightened legislation. For this reason we trust in such measures of justice as the Irish Church bill, which should not be left unsettled a moment longer than can be avoided. Until it is settled there is little hope of tranquility in Ireland, and the gravest results are to be apprehended from temporary postponements. Heavy, indeed, is the responsibility of those who have power to rescue the measure from delay."

The Harvard crew are at Putney. They decline the challenge of the London Club.

Another dreadful colliery explosion occurred yesterday at Helens, a small place east of Liverpool. Thirty persons were killed outright and sixty injured. The whole section of country is in mourning.

FRANCE.

PARIS, July 22.—The Ministerial Council have prepared and presented to the Emperor the basis of a *Senatus Consultum*, giving effect to the political reforms proposed in the Emperor's message to the Corps Legislatif. Since the prorogation of the Corps Legislatif the Deputies of the Left have held a meeting to consider what action they should take under the circumstances. M. Miers presented and explained a protest against the attitude of the Government towards the Chamber, and then proceeded to develope the programme of political reform, but his propositions were considered too monarchial by the Democrats and were rejected. M. Jules Favre advocated silence for the present, and others favored a dissolution of the Chamber. The meeting adjourned without arriving at any conclusion.

The official newspaper to-day says Victor Durny and Adolphe Vintry have been appointed Senators.

PARIS, July 22.—The amount of specie in the vaults of the Bank of France has increased 7,000,000 francs since the last report.

SPAIN.

MADRID, July 22.—The entry of Don Carlos in the province of Navarre is confirmed. Great precautions are being taken by the Government.

BELGIUM.

BRUSSELS, July 22.—J. Russell Jones, the new American Minister to Belgium, arrived yesterday.

MARINE NEWS.

MOVILLE, July 22.—The steamer Cambria, from New York for Glasgow, arrived to-day.

FINANCIAL AND COMMERCIAL.

LONDON, July 22.—*Evening.*—Consols for money 93¼; on account 93⅝. American securities: 5-20 bonds at London quiet and steady at 83½; at Frankfort 87¾ @88: Eries 19; Illinois 95.

LIVERPOOL, July 22.—Cotton market steady; middling uplands 12½d; Orleans 13d.; sales 10,000 bales. California white wheat 10s. 6d; red western No. 2 9s. 10d. Western Flour 23s. Corn—No. 2 mixed 30s. for old, and 29s. for new. Oats 3s. 6d. Peas 38s. 6d. Pork 93s. Beef 90s. Lard 69s. 6d. Cheese 61s. Bacon 62s. Spirits Petroleum 7d.; refined 1s. 6d. Tallow 45s. 3d. Linseed Oil £33. Linseed cakes £10 5s.

LONDON, July 22.—Tallow 45s 6d. Linseed oil £31 1s. Sperm oil 91s. Sugar 39s. 9d. spot; afloat firmer at 28s @28s. 3d. Whale oil £40. Calcutta Linseed 62s. Turpentine 26s. 3d. Petroleum at Antwerp 50 f. and easier. Specie in Bank of England 459,000 pounds.

FRANKFORT, July 22.—U. S. bonds closed buoyant at 88¼.

PARIS, July 22.—Bourse strong; Rentes 72 francs.

HAVRE, July 22.—Cotton market closed quiet and steady.

Dartmouth College Commencement.

[By Telegraph to the Pittsburgh Gazette.]

HANOVER, July 22.—Commencement Day proper at Dartmouth College was celebrated to day and the exercises have passed off with more than usual eclat. A large meeting of the Alumni was held this morning, at which resolutions were adopted, with a view to obtain $200,000 for the College, of which $25,000 were subscribed on the spot. At the close of the literary exercises, honorary degrees were conferred as follows: D. D., Rev. Edmund O. Hovey, of Wabash College, Indiana, Rev. D. Hopkins Emerson, of Philadelphia, Rev. Horace B. Eaton, of Palmyra; LL. D., Hon. Jas. F. Joy, of Detroit, Michigan, Hon. Henry A. Bellows, of New Hampshire, Hon. Jonathan E. Sargent, of Massachusetts; A. M., Rev. John W. Allen, of Northampton, Massachusetts, Ossain Ray, of Lancaster, New Hampshire, J. H. Benton, Esq., of Lancaster, New Hampshire, Josiah H. Benton, Jr., of Lancaster, N. H., Gen. John Bertell, of Bath, N. H., Jno. Ward Dean, Esq., of Cambridge, Mass., Dr. Wm. H. Muzzey, of Cincinnati, O., Hon. Ryland Fletcher, of Cavendish, Vt.

About seven hundred sat down to dinner with the invited guests and others who increased the number to nearly a thousand. After dinner the company repaired to the tent, where speeches were to take place. Judge Chase presided and speeches were made by Gov. Stearns, of N. H., Gen. Sherman, Job Lyman, of Vt., Hon. Harvey Jewell, Speaker of the House of Representatives of Massachusetts, Hon. John Wentworth, of Ill., and several others. A promenade concert was given which was largely attended.

—Mazatlan advices to July 12th state the Fourth of July was quietly observed by resident Americans. Gov. Rubri being unwell, sent his Secretary to make the usual congratulatory visit to the American Consul. The rainy season had commenced. The mines at Cosala, Capola and Veritano were yielding large quantities of silver. Gen. Vega is still at Tepic, the guest of Lozada. It is stated Vega will certainly carry out his plan for a northwestern confederacy within a few months at the farthest, his popularity and the support of Lozada's troops rendering him invincible.

MILITARY INTELLIGENCE.

(By Telegraph to the Pittsburgh Gazette.)

CHICAGO, July 22.—The following information is obtained from Lieut. Gen. Sheridan's headquarters:

The War Department at Washington has issued orders for the transfer of troops from points in the east to various military posts near the Upper Missouri river, along the frontier, which have become greatly reduced in the numbers of the troops left there to defend them.

The Superintendent of general recruiting service at Cincinnati is instructed to forward, without delay, all disposable recruits at Newport Barracks, Kentucky, to reinforce the 13th Infantry.

The Superintendent of recruiting service at New York will forward all disposable recruits at the depots to the 13th infantry, one hundred to be sent via the Chicago and Northwestern Railroad to Sioux City, Iowa, and thence by boat to Buford, Dakotah, the balance by the cheapest route to Corinne on the Union Pacific Railroad, from which point they will be marched to such a post occupied by the 13th infantry as may be designated by the Commanding General.

The Superintendent of the mounted recruiting service, at Carlisle Barracks, Pennsylvania, will forward a detatchment of one hundred recruits to Fort Ellis, Montana Territory, to be assigned to Companies F, G, H, and L, Second United States Cavalry. In each case the Quartermaster's Department will furnish the necessary transportation.

Generals Sherman and Sheridan have telegraphed their congratulations to General E. A. Carr of the army, on his recent dashing military expedition against hostile Indians of the far west. General Parker, Commissioner of Indian affairs, gives it as his opinion that the effect of General Carr's recent success over the savages will be to stop the Indian raids and outrages on the western frontier.

THE CAPITAL.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, July 22, 1869.

WORLD'S EXPOSITION.

Measures have been instituted for the organization of a company having in view the holding of a World's Exposition of manufactures, &c., in Washington, a year hence.

PROMULGATED.

Official proclamation is made of the recent convention between the United States and Peru for the adjustment of claims of the citizens of either country against the other. They are to sit at Lima.

PUBLIC LANDS.

Returns from the Land office at Salt Lake City show that during the first two weeks of June last eight hundred and eighty-three declaratory statements, covering one hundred and forty thousand acres, were filed in that office under the preemption act.

BRIEF TELEGRAMS.

—Hon. Edward McPherson sailed for England on Wednesday.

—The receipts from customs from July 10th to July 17th were $3,109,543.

—Geo. Peabody left Baltimore yesterday for White Sulphur Springs.

—The Northern Pacific Railroad exploring expedition arrived safely at Fort Abercrombie July 19th.

—Commodore S. S. Lee, brother of Gen. R. E. Lee, died at his home in Stafford county, Va., yesterday.

—The damage done by the rains of last week, in Appanoose county, Iowa, says the *Citizen*, will not fall short of $200,000.

—An Italian named Louis Montellas has been arrested at Memphis, and committed to jail, for raping a girl eight years of age.

—San Francisco Customs officers seized over fifteen thousand dollars' worth of opium on the China steamer, for violation of the revenue laws.

—Prof. Shaler, of Newport, Kentucky, is in Boone county, digging for mastodon bones for Cambridge University. He has exhumed a large quantity.

—Commander F. W. Ramsey, of the United States Navy, was married, recently, at Buenos Ayres, to Miss Annie McMahon, a sister of the Minister.

—Wm. Edwards, colored, will be hung in the jail yard, at St. Louis, about noon to-day, for killing another colored man, named Wilson, at a ball last winter.

—A card, signed by numerous citizens of Crittenden county, Ark., appears in the papers, setting forth that the killing of Capt. Haynes, some days since, was unjustifiable.

—M. A. Galbraith, of Erie, has been appointed Chairman of the Democratic State Executive Committee, by ex Senator Buckalew, President of the late Convention.

—The eastern bound train of the Central Pacific Road was delayed five hours Wednesday night near Humboldt Lake by a water spout washing away a portion of the road bed.

—Four negro men and two women have been arrested at Maconah Bottom, Tenn., and lodged in jail at Memphis, on a charge of murdering a German Priest some months since.

—Among the passengers by the steamer Japan, from China, which arrived at San Francisco, were one hundred and twelve Chinese women, sent there for the purpose of prostitution.

—The first rail on the Sioux City end of the Dubuque and Sioux City railroad was laid on Wednesday. The track will be put down at the rate of one or two miles per day until completed.

—The Special Committee of the Board of Supervisors of Cook county, Illinois, appointed to locate the County Insane Asylum, have decided the location will be on the farm of D. S. Hammond, Esq.

—John Cummins, a laborer at the Kingsland Iron Works, at Carondolet, Mo., fell from the top of an elevation yesterday, a distance of seventy-five feet, and broke his skull, killing him instantly.

—Last Thursday, during a severe thunder shower, two children of Mr. W. Cook, residing about five miles southwest of Delhi, Iowa, while sleeping together on the floor, were struck and instantly killed by lightning.

—Lieutenant Commander H. B. Seeley, of the United States steamer Pawnee, has been arrested at Portsmouth, N. H., and held to bail on two warrants, charging him with unwarranted cruelty to several seamen of that vessel.

—The Canadian Press Association arrived yesterday at Syracuse, New York, and were entertained by the Syracuse Press with a reception and dinner. They proceeded to Oswego in a special train. The excursionists number one hundred and twenty.

—Advices from various parts of the west are to the effect that the weather for the past four days has been favorable to the ripening of the growing grain crops. There have been occasional showers at some points, but no heavy rains since last Saturday.

—Wednesday evening the prisoners in the jail at Hamilton, Ohio, knocked the turnkey down and attempted to release Griffin, who is sentenced to be hung for murder on next Thursday. The alarm was given and the plan failed. Four of the prisoners who escaped were rearrested.

—Another successful trial of the air ship Avitor was made at San Francisco, on Wednesday, in the presence of members of the press, a portion of the Chicago excursion party, and a number of engineers. Several of the latter expressed the opinion that a larger machine, now under construction, will be a success.

—A Buenos Ayres letter of June 14th, states that Lopez was about to torture his prisoners in retaliation for the refusal of the Count D'Eu to prevent the Paraguayan battalion in the allied army from carrying the Paraguayan flag, when Minister McMahon interfered, and declared all under the protection of the United States.

—The official vote of Washington Territory is fifty-two thousand and thirty-eight; increase in two years six thousand and ninety-eight. Garfield's, Republican, majority for Congress is one hundred and forty-eight. The vote as to a State Convention was small, being four hundred for and six hundred and eighty-eight against.

—Wednesday, at Beloit, Wis., while Deputy Sheriff Johnson and Constable Hawley were quietly conducting a stranger, whom they had arrested, to the calaboose, he suddenly drew a revolver and shot Johnson threugh the shoulder and Hawley in the abdomen. The latter wound will probably prove fatal. The prisoner made his escape.

—A Kanawha river raftsman, named Burns, very drunk in the hotel kept by Ed. L. Quinton, in Cincinnati, grew boisterous Wednesday afternoon, and was requested by the landlord to keep quiet. He refused and stabbed Quinton in seven places when the latter attempted to put him out. Wm. Thomas, who interfered, was cut up badly. The citizens arrested and took Burns to the station house. Quinton is dangerously injured.

—It is reported that the Rev. Father McMullin will be appointed administrator of the Roman Catholic Diocese of Chicago, Bishop Duggan's restoration to sanity being considered hopeless. Archbishops Spaulding and Kendrick held a conference with the Roman Catholic authorities on Tuesday evening, when, it is stated, three clergymen were named for the position of Acting Bishop, Father McMullin being the most prominent and likely to be appointed. It is also rumored that Rev. Father Roles will be reinstated in his former charge. Father McMullin, during the contest between Bishop Duggan and certain of his clergymen, maintained a steady opposition to that prelate.

Additional Markets by Telegraph.

BUFFALO, July 22.—Flour quiet and steady with sales 275 bbls. city ground spring at $6,50@6,75. Rye Flour nominal at $5,75. The Pittsburgh Gazette.

A WONDER.

Still alway groweth in me the great wonder,
When all the fields are blushing like the dawn,
And only one poor little flower plowed under,
That I can see no flowers, that one being gone:
No flower of all, because of one being gone.

Aye, ever in me groweth the great wonder,
When all the hills are shining, white and red,
And only one poor little flower plowed under,
That it were all as one if all were dead:
Aye, all as one if all the flowers were dead.

I can not feel the beauty of the roses:
Their soft leaves seem to me but layers of dust;
Out of my opening hand each blessing closes:
Nothing is left me but my hope and trust:
Nothing but heavenly hope, and heavenly trust.

I get no sweetness of the sweetest places:
My house, my friends no longer comfort me:
Strange somehow grow the old familiar faces:
For I can nothing have, not having thee:
All my possessions I possessed through thee:

Having, I have them not—strange contradiction!
Heaven needs must cast its shadow on our earth;
Yea, drown us in the waters of affliction,
Breast high, to make us know our treasure's worth:
To make us know much our love is worth.

And while I mourn, the anguish of my story
Breaks, as the wave breaks on the hindering bar;
Thou art but hidden in the deeps of glory,
Even as the sunshine hides the lessening star,
And with true love I love thee from afar.

I know Our Father must be good, not evil,
And the murmur not for faith's sake, at my ill;
Nor at the mystery of the working cavil,
That somehow bindeth all things in His will,
And though He slay me, make me trust Him still.

ALICE CARY, in Harper's Magazine for August.

PENNSYLVANIA.

Two convicts escaped from the Clearfield county jail last week.

THE American House in Couder sport, Potter county, was burned to the ground last week.

THE Juniata county soldiers' monument is to cost $900, and be completed by November 1st.

HIGHWAY robberies are very frequent in the neighborhood of Gettysburg and Chambersburg.

FOUR wells for oil are going down, near Meadville, one of them is already two hundred feet deep, and fast getting deeper.

CAPT. B. F. KING, an old politician and esteemed citizen of Armstrong county, died at Freeport on the 15th inst., aged 73 years.

THE Meadville Agricultural works are running full time, and selling all the machines they can make, that is about thirty per week.

WILKESBARRE is so miserably wicked that the respectable portion of the population talk of forming a Vigilance Committee, and thereby assisting the officers of the law.

IN Clearfield they have an early closing movement, and ten firms, doing business in that borough, have a card in the papers stating that they will close their stores during the summer at *eight* o'clock.

THEY had a hurricane in Butler county the other day, which, besides tearing up trees and down fences, blew a hat off the head of Major Frank Anderson four miles. We don't know if the Major ran after it.

THE little girl who some weeks ago was supposed to have been lost in the mountains, near Mercersburg, has been found near Bridgeport, Cumberland county, where she had been taken by a band of Gipseys.

A WOMAN named Esther McNamara was run over by the Reading accommodation train, upon Friday morning, a short distance below Phœnixville, and instantly killed. A coal train was passing in the other direction at the time, and the woman did not notice the approach of the passenger train.

THE excavation of the Indian mounds in Cornplanter Township, Venango County, Pennsylvania, has resulted in some very interesting developments, The mummified body of an Indian princess has been discovered, and was on exhibition at Titusville, Thursday, The remains are said to be in an excelent state of petrifaction, and worthy of scientific inspection.

WE have received the first number of *Public Opinion*, a neat little weekly paper published and edited in Chambersburg by Mr. M. A. Foltz. It claims to be an advanced Republican paper, cordially supports the party nominees and has for its motto "The will of the people is the law of the land." We should like to see it cordially supported and an established success if it sticks to the principles it so boldly announces in its first issue.

THE Doylestown *Democrat* says: On the evening of July 11th, Henry L. Foster, a broker in Philadelphia, and Constantia, his wife, were thrown from a carriage in which they were riding along the Neshaminy creek road, in Bensalem township, near Schenck's Station, by the horses taking fright. Mr. Foster and his wife were both injured, the latter very seriously about the head and body. They were both removed to their residence at Schenck's Station.

THE Altoona *Vindicator* says: On Thursday afternoon last, one of the most terrific thunder and lightning storms on record, visited Huntingdon and that neighborhood. Two men, employes of the Penn'a. Railroad, took shelter under a coal schute, above Huntingdon. A wire extended from the telegraph wire to the ground in close proximation to the spot occupied by the two men. During the progress of the storm the electric current passed down the wire and struck the men, killing them instantly.

THE Pittston *Gazette* says: On Saturday, July 3d, a young lady from New York, (Ellen Culp,) visiting some friends in Huntsville, was killed under very distressing circumstances. Martin Pembleton was to accompany the young lady on a drive to Harvey's Lake, and had his carriage in front of the house to receive the lady who was at this moment passing through the gate. Mr. P. was at the instant examining a revolver to ascertain whether it was loaded or not, when it was accidentally discharged, and the ball passing through the lady's heart, killed her instantly.

THE Lebanon *Courier* says: Mr. John Sanders, proprietor of the Campbellstown hotel, was seriously stabbed, on Monday, by a German named Thomas Honston. Honston was making more noise than was agreeable to Mr. Sanders, who requested him to be quiet, when he drew a knife and madee a lung at Mr. S., cutting him badly in the abdomen. Honston was at once arrested and was brought to the Lebanon jail. He is a German, who has been working on a farm a short time in the vicinity of Campbellstown. Our informant states that Mr. Sander's condition was considered dangerous.

ON Thursday last, a dog belonging to Mr. John Backenatose, in East Hanover, was killed by lightning. The dog was lying under a willow tree near the dwelling, when the fluid put a sudden termination to his existence.

On the same day the barn of Mr. Peter Risser, in Londonderry township, was struck by lightning. Hands were at the time engaged in unloading their fourth load of wheat, and one of the men was stunned by the shock. The barn took fire and was consumed, with its contents, embracing the wheat, the full crop of hay, a threshing machine and other farming implements.—*Lebanon Courier.*

ON Thursday last two boys, named Washington E. Owen, son of Rev. Mr. Owen, pastor of the M. E. Church. St. Clair, and Dawson D. H. Hunt, adopted son of Mr. Dawson, shoe dealer of the same borough, went with another boy named Roehrig, to a break in a vein to bathe. The hole is very deep, but for a certain distance from the bank slopes. Beyond, it descends perpendicularly. The boys, who could not swim, ventured too far, and got beyond their depth. Roehrig succeeded in getting out, but young Owen and Hunt were drowned. Their bodies were recovered about three hours after. The boys were each about thirteen years old, and were bright intelligent lads.—*Miners' Journal.*

THE *Miner's Journal* says: On the evening of the 9th inst, a terrible accident happened about six o'clock, at Oliver's Eagle Hill Shaft, killing Wm. Clark and John Delaney. It seems that a platform had been erected in the shaft, about twenty yards from the top, for the purpose of putting in new timber. On this platform Mr. Clark and Mr. Delaney were working. A support of the platform on one side gave way, the platform tilted, and the unfortunate men slid off, and fell a distance of about one hundred feet to the bottom. In their descent they struck on the sides of the shaft, and were shockingly injured. Mr. Clark was picked up dead, the whole back part of his head being laid open, and his neck broken. Delaney's head and body were also crushed and otherwise mutilated. He lingered in an insensible condition for about an hour and a half, before he died.

OHIO.

AT Harshmanville, a few miles from Dayton, on Saturday evening, a small boy and girl, children of John Reid, were engaged in play, when the boy, finding a shot gun within reach, pointed it at his sister, and, supposing it to be unloaded, pulled the trigger. The discharge sent a heavy load through the child's head, killing her instantly.

ON Tuesday, in Washington Park, Cincinnati, a handsome young Pole shot himself through the heart. The cause was unrequited love for a young Italian girl. In the dead man's pocket was found the following letter written in German:

"*One Hour Before Death*—My name is Emil Gerowski. I have been trying to kill myself for the last two weeks, and I regret exceedingly that I was not killed while fighting in the Union army. Let none of my friends who may read this mention how I died to my poor mother and sister.

"Adieu, dear home."

ON Tuesday a weak-minded man named John Meagher, living in Cincinnati and for years addicted to drunkenness, attacked his wife—with whom he had lived fifteen years—with an axe, and inflicted two terrible gashes, from the effects of which she will probably not recover. The immediate cause of the terrible deed was the woman's refusal to give her drunken husband a dollar to pay for more liquor. Horrified by what he had done, Meagher ran through the streets until he reached a wharf boat on the Ohio, from which he plunged into the river and was drowned. The unhappy couple had four children, the eldest being 13 years old.

Iron Cars.

Since the recent accident at Mast Hope, on the Erie Railroad, the question of the propriety of using iron cars has come up again for discussion. Just after the accident of December 28th, 1867, at Angola, on the Lake Shore Road, when 70 persons were killed and 40 were wounded, iron freight cars were experimented with but the results were not satisfactory. Now, however, a car has been proposed which, it is stated, will entirely supersede the wooden cars. The new car is composed of wrought iron tubes combining the greatest strength with the least weight, cannot take fire, and will not break into splinters. Another advantage consists in the greater amount of merchandise the iron tube cars will carry. It is asserted that a common box car built of wrought iron would weigh less than six and one-half tons, while wooden cars of the same dimensions weigh not less than ten tons. The wooden cars are allowed to carry ten tons of freight; the iron cars, on account of their greater strength, it is believed, could carry thirteen and one-half tons, the weight of car and freight then being only twenty tons. The imperfections of railroads are at present also the subject of extended comment by the journals of England, where the general impression has heretofore been that better protection to life and limb is furnished than in any other country. But serious doubts are beginning to be entertained as to the soundness of this belief, since the record of accidents that are daily occurring at the London railway stations, and on the English roads, is becoming appalling. The *Pall Mall Gazette* characterizes some of the stations as slaughter-houses, where people are daily butchered, and states that within a week no less than five or six persons were killed outright, and seven or eight badly injured in attempting to get on and off the railway cars as they enter or go out of the stations. —*Phila. Leeger.*

IN THE Boston Public Library, among those regularly entitled to draw books the females bear the proportion to the males of about five to six. More than two-thirds of the females have no business occupation; while less than one-twelfth of the males are in that category. Of 1,542 females with regular occupations, 300 were pupils or students; 375 were teachers, or of other professional employments; 587 were engaged in some mechanical vocation; and the rest were saleswomen, users of the pen in some capacity, or of various other occupations. Of 6,054 males, 1,645 pursued some trade or manufacture; 2,025 were in some mercantile employment—embracing 911 clerks, 350 salesmen, 320 mechanics, 226 book-keepers, &c.; 523 were of some professional occupation—as 106 lawyers, 88 editors and reporters, 82 clergymen, 100 teachers, 152 physicians, surgeons, dentists, &c.; 129 public officials; 237 of the laboring classes; 158 of artistic pursuit; 224 dealers of various kinds; 750 pupils and students; 200 shop or store boys, &c.

CLIPPINGS.

THE ladies tilt their hats forward radically just now. If gentlemen were to assume that angle they would be accused of having taken something spirited.

GENERAL BERDAN, the inventor of the famous rifle, had a brilliant reception at St. Petersburg, and is doing a flourishing business with the Russian Government.

THE principal gamblers at Monaco are Russians and Americans. Among the latter are several females, who may be seen morning and evening at the *rouge et noir* tables.

SUNDAY SCHOOLS are being established in Russia upon the American plan. In the usefulness of these institutions, America has silently taught a lesson to entire Christendom.

DR. HINCHCLIFF, Bishop of Petersborough, had much ready wit, and was extremely apt at checking those who were fond of cavilling at the meaning of different texts of Scripture. On being asked one day what was to be understood by the expression "He clothed himself with curses as with a garment?" "The clearest thing in the world," replied the doctor; "the man had a *habit* of swearing."

A NEW description of lava is being thrown from the crater of Vesuvius since the last eruption, consisting of a beautiful mass of crystalized salt. This beautiful phenomenon has hitherto been unknown in volcanic natural history. The scientific bodies are occupied in investigating the cause and composition of the crystals. None of the *savans* feel inclined to go down and see into it as yet.

AT A traveling menagerie in Orleans, France, recently, the wife of the proprietor was passing the cage of a lion with her infant in her arms, her dress sweeping the bars. The beast seized her gown with one paw, and as the woman turned suddenly round seized with the other the child out of her arms, dragged it within the cage, and nearly devoured it before assistance arrived. The animal was shot.

A METHODIST paper invites "our friends" who have any sort of patience in listening to the slow, dragging singing in some of the church services to sing the following stanza, written by the Rev. Alfred Taylor, to the tune "joyfully:"

Dismally, dolefully, downward we drag,
Making our music most mournfully lag;
Singing the songs of salvation so slow:
Groaning and grunting along as we go:
Painfully poking o'er pious old poem,
Weary, the worshippers want to go home;
Drone so dull they don't know what to do;
Pleased when the plodding performance is through.

AN exhibition of postage stamps is now being held at the Hotel des Monnaies, in Paris. England makes the best show, as she has thirty-four colonies, each with a different design. The United States comes next, the artistic designs on her stamps having a beautiful appearance. The Turkish stamps contain the year of the flight of Mahomet, the year of the reign of the Sultan and the value of the stamp in Oriental characters. Finland commenced to issue stamps last year. The exhibition is open daily from eleven to five.

THE *Kladderadatsch*, of Berlin, has the following carricature on the comparison between the United States and Europe: Representatives of the various European nations are sifting their respective treasuries, when the figure of the United States appears to them, bearing the following telegram: "New York. The national treasury has increased by ten millions of dollars since the beginning of June." One of the European Finance Ministers—"Such fellows as those; why they have not even a standing army, and still want to have their say."

WITHIN the space of one block at Detroit, one day last week, there were at one time a one legged soldier grinding an organ; a one legged soldier holding out a cigar box for pennies; a one armed boy grinding another hand organ; a deformed boy asking charity; a half-breed Indian exhibiting a decayed leg, and soliciting alms; a young lad asking for five cents to buy a loaf of bread for a rheumatic mother; a man with both feet off, looking hurt if the coppers did not fall into his hat, and a lad leading an old man from store to store, to collect money to support him in his blindness.

THE Racine (Wis) *Journal* has the following curious incident: "The other day a young man was indulging in the luxury of a swing; indulging in it lazily, that is, he sat in the swing while a vigorous friend swung him with a rope that was attached to the seat. The vigorous friend, thinking he would give his friend a sensation, drew the rope back with a sudden jerk; the slack, by some means, twisted around the neck of the swingist, and with a snap that fairly made his toe nails jingle, jerked him out of the seat and left him hanging in the air. When he was released from his unpleasant predicament it was a long time before he recovered, and as yet he has not got over his accidental hanging."

A BOLD and successful forgery perpetrated by the Rev. Mr. Mitchell, a Methodist clergyman at Chittenango, Madison County, N. Y., has been discovered. He forged the name of Robert Stewart, President of the National Bank of Chittenango, to a draft for $5,000, payable to the order of the Rev. Mr. Greenleaf, a Methodist minister of Lee Center. Mitchell and Greenleaf look alike, and the former deceived Mr. Carleton, of New York, the publisher, into identifying him as Greenleaf, to whose order the draft was payable at the Fourth National Bank of New York. Mitchell got the money and invested it in Government securities. His resemblance led to his detection. He has restored $4,600 and effected his escape.

Annexation.

The change of opinion in the British maritime provinces of Canada, in reference to their annexation to the United States, is very remarkable. During the Crimean war and during the recent rebellion, the most bitterly hostile sentiments towards the people and the Government of the United States were continually expressed in the newspapers, and every disaster occurring to the United States armies was hailed with the most exuberant feelings of joy. Now, however, the annexation party is bold and active. In Nova Scotia, a great number of public men and five or six daily and weekly journals openly advocate annexation. In New Brunswick, an editor, who three years ago took the other side of the question, is now much more violent in the expression of sentiments of an opposite character, favoring annexation. The representative of the city of St. John, in the Provincial Legislature, introduced in that body a resolution declaring in favor of annexation, and in the province of Edward's Island two newspapers advocate the same policy.

GAS FIXTURES

WELDON & KELLY,
Manufacturers and Wholesale Dealers in
Lamps, Lanterns, Chandeliers,
AND LAMP GOODS.
Also, CARBON AND LUBRICATING OILS.
BENZINE, &c.
No. 147 Wood Street.

DR. WHITTIER
CONTINUES TO TREAT ALL private diseases, Syphilis in all its forms, all urinary diseases, and the effects of mercury are completely eradicated; Spermatorrhea or Seminal Weakness and Impotency, resulting from self-abuse or other causes, and which produces some of the following effects, as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are permanently cured. Persons afflicted with these or any other delicate, intricate or long standing constitutional complaint should give the Doctor a trial; he never fails.
A particular attention given to all Female complaints, Leucorrhea or Whites, Falling, Inflammation or Ulceration of the Womb, Ovaritis, pruritis, Amenorrhoea, Menorrhagia, Dysmenorrhoea, and Sterility or Barrenness, are treated with the greatest success.
It is self-evident that a physician who confines himself exclusively to the study of a certain class of diseases and treats thousands of cases every year must acquire greater skill in that specialty than one in general practice.
The Doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and private diseases, that can be had free at office or by mail for two stamps, in sealed envelopes. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.
The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the Doctor's opinion can be obtained by giving a written statement of the case, and medicines can be forwarded by mail or express. In some instances, however, a personal examination is absolutely necessary, while in others daily personal attention is required, and for the accommodation of such patients there are apartments connected with the office that are provided with every requisite that is calculated to promote recovery, including medicated vapor baths. All prescriptions are prepared in the Doctor's own laboratory, under his personal supervision. Medical pamphlets at office free, or by mail for two stamps. No matter who have failed, read what he says. Hours 9 A.M. to 8 P.M. Sundays 12 M. to 2 P. M. Office, No. 9 WYLIE STREET, (near Court House,) Pittsburgh, Pa.

fe30

CHEESE.—50 boxes Factory Cheese, 25 boxes Goshen do., for sale by J. B. CANFIELD.

RIVER NEWS.

The river continues to recede steadily with scant eight feet in the channel by the Monongahela marks. The weather, yesterday, was again cool and pleasant and all that could be desired for out door business. Mercury at 4 P. M. 80—same time on Wednesday, 75.

The R. C. Gray, from St. Louis, is the only transient arrival we have to report. She had a good trip.

The Kenton arrived last evening from Portsmouth, and will depart again today.

The Glasgow is reported laid up at Cincinnati, undergoing repairs.

Capt. Rea's new boat is progressing finely and will soon be completed.

There is no improvement to note in business at the landing, nor is it likely that there will be for some time to come. Freights for all points continue remarkably scarce and boats experience considerabel difficulty in picking up a trip.

Capt. Tom. Rogers is here, after an absence of several months, during which time he has been in command of the St. Louis and New Orleans steamer Continental.

The Glendale was at Cairo on Tuesday, en route from Pittsburgh to St. Louis.

The Mollie Ebert, Arkansas and Great Republic, were at St. Louis on Tuesday.

The Lorena departed for St. Louis last evening with a fair trip. Pilots—Goslee and Oaks.

The Wild Duck arrived at St. Louis yesterday.

The Mary Davage arrived from St. Louis yesterday.

—Wananita is reported as having laid up at Cincinnati.

—The Minneapolis, on a recent trip, registered 700 passengers.

—The Rose Hite goes on the Madison ways for thorough repairs.

—The Bellevernon left Cincinnati for St. Louis on Tuesday with 550 tons.

—The Ironsides arrived at St. Louis on Monday, and returned to Cairo for the balance of her tow.

—The Lotus No. 3, left Cincinnati for New Orleans on Tuesday. Wm. Ford and John Naldrige were her pilots.

—The Tom Farrow arrived at Cincinnati on Tuesday, with the wreck of the Underwriter, burned at Cairo, recently, in tow.

—The Messenger left St. Louis for Pittsburgh on Monday. She received 100 tons metal at St. Louis, and had 200 tons engaged at Sulpher Springs.

—The Kate Putnam, Capt. G. W. Reed, is now in turn for St. Louis, and will be the next boat out. The Kate has made quite a reputation for speed recently. She made the round trip to Cincinati and back in a week.

—The Louisville City Council are asked to subscribe $150,000 for the improvement of Kentucky River slack water navigation. That twelve dams and locks to the three forks, giving slack navigation 267½ miles.

—Captain A. M. Gill, who had the Belle Lee built, has retired from the river, after twenty years' service. He has taken a position in the extensive and reliable house of Bentley, Johnson & Co., of Louisville.

—Captain Wm. Richardson, of the once famous Mary Keepe, later of the R. E. Lee, and still later of the Wild Wagner, has sold his interest in the last-named steamer, and is for the present, out of the business. He is now in Louisville.

—Captain Ab. Shaw recently arrived from Wheeling, and has dwelt since with his mother in this city. He has been down to see his steamer, the big sternwheeler Arkansas, since her arrival here, Saturday night, from Dophan's rapids, and has not made up his mind yet as to what trade she will enter, nor can he clearly discern any trade that is likely to be remunerative at the present time. Like several other steamers, the Arkansas was unable to "make the riffle" to Fort Benton this season, and her owners have no reason to boast of large profits. Capt. A. C. McConnell, clerk of the Arkansas, went on to Benton to see his freight delivered and to collect the bills. When all that is attended to, he will return to St. Louis a sadder if not a wealthier man.—St. Louis *Democrat*.

U. S. MARSHAL'S OFFICE, W. D. of Pennsylvania, PITTSBURGH, July 20 1869.

THIS IS TO GIVE NOTICE that on the 12th day of July, A. D. 1869, a Warrant in Bankruptcy was issued against the Estate of SOLOMON C. HESS, of Allegheny City, in the County of Allegheny, and State of Pennsylvania, who has been adjudged a Bankrupt on his own petition; that the payment of any debts and delivery of any property belonging to such Bankrupt or to him or for his use, and the transfer of any property by him are forbidden by law; that a Meeting of the creditors of the said Bankrupt, to prove their Debts and to choose one or more assignees of his Estate, will be held at a Court of Bankruptcy, to be holden at No. 116 Federal street, Allegheny City, Allegheny county, Pennsylvania, before JOHN N. PURVIANCE, Esq., Register, on the SIXTH DAY OF AUGUST, A. D. 1869, at 10 o'clock A. M.

A. M. KOCH.

GOLD closed in New York yesterday at 135⅝.

THE income-tax expires with next year's payment, unless Congress re-enacts it, at the next session.

THE Pittsburgh *Post* evinces an inclination to abandon politics for a still dirtier field. Every one to his taste!

THE Treasury reckons upon at least a ten-million reduction of the national debt this month, and probably as much more for August. In September, it will do well to hold its own, the receipts falling off with large disbursements.

THE work is going forward favorably, on the new branch of the B. & O. Railway, from Washington westward. When completed to the Point of Rocks, the distance from the Capital to Cumberland will be shortened forty-nine miles. With the final opening of the road by Connellsville to Pittsburgh, the shortest connection will be accomplished between Washington and the Northwest.

THE Mississippi Democracy are not so partial to Judge DENT as their candidate, since they have discovered that he is not to have the support of the Administration. The Conservative Republican humbug is completely exploded, and the canvass will become a square contest between Radical Republicanism and the rebel Democracy. Neither party has yet made its regular nominations, but the Republican Convention will be first held, and at an early day.

THE Ohio Democracy are not all for ROSECRANS. Another Convention is to assemble under the following call, which appears in the Bucyrus *Journal:*

A Convention of the Democracy of Ohio will be held at New Washington, Crawford county, on Wednesday, 28th July, to nominate a State ticket.

None but those known as Copperheads during the war need attend.

Published according to the wishes of straightout Democrats.

A similar movement in Pennsylvania will be next in order. The call should read: "None but those in favor of a poor man's candidate need attend."

IT IS reported, from Toledo, that the Erie and Wabash companies have come to a friendly understanding, and that the connection with the A. & G. W. line will be made forthwith, running a through route from the Mississippi to New York. Should the arrangement be consummated, it will result in the public advantage. The new route will be of decided service for the movement of slow freight, while business requiring greater dispatch, together with the general travel, which has no inclination for the peculiarly "happy dispatch" provided for the customers of the Erie, will take the central route through to Pittsburgh.

THE Irish Church bill is for the present defeated by the resolute opposition of the Upper House of Parliament, which insists upon incorporating the principle of concurrent endowment. Ministers now propose to withdraw the measure, adjourning Parliament until August, and creating new Peers during the recess, enough to swamp the recusant majority when the bill shall again be brought up. Political excitement will run high during the recess, accompanied perhaps with some popular disorder, but the programme of the Government will eventually be carried through, without any extraordinary encroachment upon constitutional privileges. The crisis will never succeed in reaching a revolutionary importance.

ENQUIRIES reveal the fact that not enough members elected to the new Virginia Legislature can take the official oath to make a quorum. The trouble with the successful Democracy is that they were all arrant rebels. A new election will be ordered for the districts thus vacated, when the opposition, following wise advice, and "bending to the storm in order to avoid breaking," will put up candidates of a suitable stripe. The action taken by Gen. CANBY has elicited the bitterest complaints from the rebels and their sympathizing friends at the North, but none of these have yet found an answer to the General's explanations, from which we quote a single paragraph:

A district commander cannot dispense with the oaths prescribed by the laws of July 2, 1862, and July 11, 1868, as they apply to particular cases, and substitute for them the oath prescribed by any proposed constitution, the validity of which is contingent upon future action, without assuming a power which Congress has expressly reserved for itself.

WHAT THE anthracite miners propose is that they shall receive one-fifth of all the moneys the coal may sell for, reserving the right to strike whenever the price shall rule at less than five dollars a tun. To these conditions, what are known as the New York corporations refuse to accede, insisting that to consent would be virtually to take the miners into partnership. In addition, they protest that what they desire is not a high market, but a certain and constantly increasing one. If they can make ten per cent. on the capital invested, and have a surplus sufficient to make the necessary extensions of work, they profess to be better satisfied, than to have a market violently fluctuating, sometimes very high, and then decidedly low. An average profit of a dollar a tun is what they aim at. These ideas, for a broad consideration of the case, are altogether rational; but the miners would be better satisfied with high prices and a resort to strikes, as a measure of enhancement, whenever prices droop.

So far, there seems to be no probability of the corporations and the miners coming to an agreement. The corporations say they will stand out all summer, and the miners are equally resolute. It is more than probable that the combination among the miners has for the first time produced a combination on the part of the companies. If this is really so, it is difficult to determine in advance which will yield to the other.

ASA PACKER—WEALTH.

The Democratic candidate for Governor is the richest man in this Commonwealth. He is reputed to hold upwards of twenty millions of dollars of property. Nor did he acquire this fortune by trick or chicanery, but in legitimate and honorable ways. In his own town of Mauch Chunk—the rumors of the street, which the rules of legal evidence esteem the best criterion of a man's character, do not implicate him as having made deceitful or otherwise discreditable gains.

He has demonstrated, moreover, that he knows how to put money to higher uses than to personal or family gratification and aggrandizement. He has invested largely in public improvements, and given princely sums for educational endowments.

In all these particulars he may well be taken as a model by all men into whose laps the wheel of fortune has poured abundantly. Self-possessed and suave, he has not been spoiled by his financial successes, but remains as plain and unpretending as when he wrought as a carpenter for daily wages.

But Mr. PACKER is not a man of ideas. Neither he for himself, nor his most intimate friends for him, put forward such claim. Take the dollars from him, and he would be accounted by everybody a very ordinary individual. In the Legislature and in Congress he was absolutely undistinguished, because he was quite out of the sphere he was designed by Nature to occupy.

This is not an unusual case. By far the larger proportion of men of wealth in this country and elsewhere, are not conspicuous for capacity to reason, especially in the higher realms of thought. Not a few of them are so destitute of ideas, as to excite astonishment at their success. Fortune is notoriously a capricious jade, and takes delight in so dispensing favors as to make it impossible not to recognize her partiality. Moreover, the aptitudes and habits by which vast sums of money are ordinarily obtained, are not such as are essential to the acquisition of knowledge, in the best and truest sense of the term.

Some years ago, stepping into a railway coach, early one morning, we encountered a New York acquaintance, who was and is noted for wealth and enterprise, standing at the head of this particular line of traffic. As sleeping cars did not agree with him, he had been riding bolt upright all night, a hardship which did not comport with his advanced years. Jestingly, we remarked that he probably felt constrained to undergo the fatigue in order to support his family. Grimly he answered, "I already have enough to ruin all my children." "Why, then keep on striving to get more?" He responded, "When I started in life, I designed to get a competency, and then put my faculties to nobler uses; but when competency was reached I found the habits of trade irradicably upon me, and that, having no resource in philosophy, art, literature, travel, society or philanthropy, there was nothing left for me but to keep on and see how much I could amass." His experience is not uncommon.

"Go to, now, ye rich men, weep and howl." "How hardly shall they *which have riches* enter into the kingdom of Heaven." With the triumph of Christianity, it has become popular to dilute passages like these by subjecting them to a paraphrase foreign to their obvious and original sense. Every student knows in what condition of society, and to what end, they were written.

Yet wealth has its uses. In a subordinate sense, it is well that large amounts of property are concentrated in comparatively few hands. It is difficult to conceive, except through such arrangement, how the peculiar enterprises that characterize modern society could be carried on. Poor men certainly cannot build cities, railways, telegraphs, factories, ships, and all those powerful instrumentalities which are the ripest products of civilization in these later times. Only vast resources, directed and controlled by a small number of individuals, are competent to these results.

When great fortunes are wielded for these purposes, whole communities become partakers of the advantages. Wealth thus becomes the source of employment to millions. A railway king, for instance, does more for the poor by furnishing them with opportunities for work and wages, than if he were to engage with munificent prodigality in indiscriminate alms-giving.

That Mr. PACKER'S money contributed directly to his nomination, we are informed by the taunts and insinuations of the portion of his party that was opposed to him. But this is clear, that but for his wealth he would not have been thought of in connection with this candidacy. The Democracy is ruled by coteries of rich men, of the most exclusive social habits and surroundings; and it commonly happens that outside of these charmed circles few selections are made for eminent public stations. We have no means for determining, with any tolerable certainty, whether Mr. PACKER'S money is to be used to promote his chances of success. The expectation that it would be thus used, was indulged by many if not most of those who were prominently enlisted in deciding the choice of the Convention in his favor It may be that expectations, in that behalf, will be brought to grief. But, it must be remembered that political enterprises can no more be conducted without money than enterprises of other sorts; and that the day has gone by in which the people really designated the men they would honor. Men now engineer their own promotion. It has literally come to pass that "he that seeketh, findeth," and that few others do. This innovation has disadvantages for able men in whose organizations love of approbation is small and self esteem large. Such will neither fawn nor solicit, and hence their promotion has fallen into the category of the impossible. Nor do we see why it is any more objectionable for one man to seek public honors than for another to enlarge his pecuniary gains by drumming up customers for his goods, wares and merchandize. This is the age of self-assertion. Eighteen hundred years ago the halt were gently helped into the pool of cleansing. Now, if any body gets helped, he must first show capacity and inclination to help himself. This is one of the minuter developments of democracy, the end of which is not yet. It accords with this system of personal solicitation and self-advancement, that the candidate should pay in large part, at least, the cost of his election. Why not? When a man makes the attainment of office an end, why should he not foot the bill, just as well as when the object of his ambition is a coach and span or coach and four? If a man is differently constituted, and insists that he shall be sought by the public if his services are wanted, why then the case is altered, and they who do the wooing, must pay the expenses, as in all analagous instances.

Mr. PACKER has captured the Democracy. He and the Democracy combined have now a harder task before them, which is to capture the Commonwealth, if they can. That enterprise seems to be quite beyond their endeavors.

SOUTHERN ILLINOIS has the following roads in course of construction or in contemplation: The Cairo and St. Louis Road; Cairo and Vincennes Road; Evansville and Metropolis; Danville, Olney and Ohio River; Belleville, Mt. Vernon and Albany; Mattoon and Grayville; Effingham, Flora and Shawneetown; Belleville, Du Quoin and Shawneetown; Mt. Carbon, Marion and Shawneetown; Edgewood, Fairfield and Shawneetown; Tamaroa, Pinckneyville and Chester; St. Louis, Carbondale and Metropolis. Means have been provided to build five of them, and there are active efforts on foot to raise the wherewith to build the balance.

THE HOPE OF THE COMMONWEALTH.

Our readers will welcome the admirable address made by Governor GEARY to the Convention of School Superintendents, at Harrisburg, on the 21st. He said:

"*Gentlemen of the Convention:* I feel indeed very highly complimented in having the permission and privilege to meet with you for a few minutes this morning, and to extend to you a most hearty welcome to the capital of Pennsylvania. When I consider the business in which you, and I may say we, are all engaged, I feel that this is an auspicious meeting in the State of Pennsylvania. I am glad that this kind of meeting has been instituted, in order that there may be more unity of action in this Commonwealth in the cause of education. When I think of the object which is before us all as citizens of this State—the high duty devolving upon all of us—I feel that we have reason to look to a higher power for aid in the noble work in which we are engaged, and I trust that power will not desert us in preparing the minds of our youth for better enjoyment of our liberties. I regard you all as members of a grand great army. You, Mr. State Superintendent, as a great general; these as your staff officers, the seventeen thousand teachers of the State your line officers, and the grand army in the great contest between Intelligence and Ignorance, Vice and Immorality, are the children of the State numbering more than eight hundred thousand. [Applsuse]. If this army is handled as it can and should be, I anticipate the most beneficial results in the cause of education. I feel that this meeting is one of intellect coming into contact with intellect, by which all should be encouraged and invigorated for the contest, and that through such meetings, victory must perch upon our banners eventually. But we in this goneration cannot hope to close the contest.

"Perhaps, to the last day of the world, the contest between intelligence and ignorance, vice and immorality, will continue; but let us go on for the benefit of the children, who are the property of the Commonwealth. Education should not alone be intellectual; it should also be physical. Will our work amount to anything if we fill the mind with information without cultivating the muscle to put it into force? I see around me in everyday life, men of muscular strength, tall, straight and brawny. If intellectual men had such bodies what an advantage it would be! Do not, then, forget the physical culture of the school children. It is incumbent upon us to make a vigorous, hardy, strong race of men. [Applause.] We should build upon a physical foundation as well as upon an educational one. The question may arise—How are we to accomplish this? I reply, give your scholars daily military drill and other kinds of exercise, and you will make them much better men.

"I have a word of kindness for you this morning. I have been a teacher in my life. I know how meanly they are paid, and how hard they are tagged. Let us elevate the whole system, pay our teachers better, and thus optain the highest order of talent. [Applause.] Give us the best men you can, and make the position of teacher one of the most honored in the State. I took occasion to refer to this subject in my last annual message to the Legislature. If teachers were paid better wages, better care would be taken of our children. I feel that a people so prosperous can afford to pay their teachers well. We have done a noble work in the education and maintainance of the soldiers' orphans. We all appreciate this great cause. [Applause.] This work will be carried on faithfully, but in five or six years, at most, the greater portion of that work will have been performed. I feel, then, that we can appropriate a million more dollars to your object. If we should lose all else we have in our country, and still have an educated people, we will have a wall around our liberties, and on our ramparts we many say, 'Victory! Victory!' With our flag nailed to the mast, let us tell the whole world that with an educated people we can face any storm. Let us nail the banner of education, which is synonymous with our flag, to our masthead, and the ship of State will never go down. Let us have no cause to blush for any action of ours in connection with the great and everlasting cause of education." [Cheers.]

SULPHITE OF CARBON is a substance which is now used very extensively for many purposes, such as dissolving India rubber, etc., but its offensive smell prevents it from being employed in many cases in which it would otherwise be applicable. A method has lately been announced, however, which deodorizes it completely, and which consists in washing it first several times with water, and then introducing it into a large retort with a quantity of quick lime. After twenty-four hours' contact, the sulphite is distilled from the lime and received in a flask, in which has been placed a quantity of copper turnings, previously calcined to remove organic matter, and then reduced by heating in a current of hydrogen. The sulphite of carbon thus purified has, it is true, a slight odor, which, if not positively agreeable, is at least inoffensive, and by its use certain pharmaceutists have been able to separate the perfume of the most delicate flowers, and by treating cow's milk with it, have been able to obtain the odor of plants which were eaten by the animals.

CARBOLIC ACID.—A well known citizen of Philadelphia, who had been using a weak solution of carbolic acid as a wash to correct the offensive odor arising from a cancerous affection, discovered that the application also removed the cancer. One-fourth of an ounce of carbolic acid is diluted with a quart (thirty-two fluid ounces) of water, and a lotion is applied three times a day. A weaker solution containing one-eight of an ounce of carbolic acid to the quart of water, would probably be a safer application.

THE cost of changing the gauge of the Missouri Pacific Railroad aggregates nearly $1,100,500, including forty-six new locomotives, $635,376; 350 new cars, $322,761; altering old engines and cars, $282,000; altering gauge of track, $52,000. There were 1,350 men engaged in changing the gauge, and so complete were the preparations and facilities for doing the work that the feat was accomplished in the incredible short time of twelve hours, and without the loss or delay of a single train.

MEASLES are particularly numerous, almost epidemic in fact, in York county.

Y. M. C. A.

Convention at Dartmouth, Maine—Five Days' Session.

[Correspondence of the the Pittsburgh Gazette.]

DARTMOUTH, Me., July 19, 1869.

The Fourteenth Annual Convention of the Young Men's Christian Association which met in Portland, the 14th inst., closed last evening, having continued five days. About seven hundred and forty members were in attendance from England, Canada and twenty-four states. There were clergymen, generals, editors, presidents, professors of colleges, merchants, farmers and men in nearly all the pursuits of life. There were in attendance intellectual and good men. Seldom has it been our privilege to look on so large an assemblage of honest and earnest men. They were of all ages, from the smooth-faced boy to the white-haired sire; mostly, however, young, sturdy and hopeful, full of zeal and energy. They evidently came together feeling that they had a great work before them, which they were determined to do. One object and purpose characterized all their deliberations. The speeches and prayers were short. There were no half-hour prayers full of instructions to the Almighty. They seemed to ask for what they felt they needed. Speeches limited to three or five minutes allowed no time for long introductions on subjects foreign to the topics under discussion. The bell checked all tendency to gaseous diffuseness. Action, business was their object. There were impertinent questions asked and irrelevant speeches made. In so large a body, nearly all of whom claimed freedom from titles of distinction, and gloried in their absence, it could hardly be otherwise. The prefixes had more favor with them than the suffixes. Being the grand army of the Lord, generals were in order, and were enthusiastially received. The different grades of doctors were ridiculed; "the colleges were got up to please certain men." They are an expensive toy; the object accomplished hardly justifies the expenditure of money and time.

So the views of some of the speakers in regard to the character of the lectures which should be given before associations and the place they should come from were crude and illiberal. Young men with a very small amount of knowledge, if they have an opportunity to address the public, will often improve it, and with great self-complacency. And one of the dangers of these associations is, that flattered by their success, in their opinion, in public speaking many may be induced to disregard the opinions of wise and experienced men, and to treat with indifference the church of Christ. We hope this will be less and less apparent. Any expression of disregard for the church was promptly and warmly rebuked. The church may have been, as we believe it has often been, too stiff, cold and formal, and may, on this account, have accomplished far less than she otherwise would. But it will be found better and safer to trust to her and her divines than to men untrained to their work, or unskilled in interpreting the Scriptures. Both of these classes may be useful to each other.

The subjects brought before the Convention were many and important; the discussions were earnest, interesting and instructive. The members had had experience in the matters of which they spoke, and they told their experiences. How to organize Y. M. C. Associations, whom to receive—how to bring young men into them and how to treat them when there; how to reclaim fallen women; how to secure Christian instead of infidel lecturers; what shall be done for the Chinese and Germans, were among the many subjects discussed. A true Christian spirit marked all of the proceedings; to save fallen men was the object. No lucrative offices were before them as a reward for their labors. To give freely of time and money was plainly their work, and their only reward the consciousness of duty done and good performed. Mr. W. E. Dodge, Jr., presided with ability and grace. He is a worthy son of a worthy sire. Gens. Howard and Fishal were active and efficient. H. L. Miller and D. L. Moody were ready, earnest and witty. Messrs. W. M. Punshon and M. W. Hodder, of England, spoke ably and most effectively. The spirit of their master clearly beamed forth from them. Dr. Howard briefly spoke, always clearly, pointedly and powerfully.

The closing exercises were in the spacious and elegant City Hall, capable of holding three thousand persons, which was packed full. The addresses on the occasion were deeply interesting. All hearts were moved by the touching words and final shaking of hands.

The whole exercises of the Convention were becoming the christian men who composed it. The influence was and is felt throughout the beautiful city in which it was held, and now the many delegates are on their way to their homes in different parts of our land to diffuse the spirit gathered at this meeting. The Associations are a great power in the world, ever to be wielded, we trust, for the good of man and the glory of the Master. S.

A NEW YORK *Tribune* correspondent writting of the great farms of California, says: "The Californian invites an Eastern visitor. 'Come down to San Mateo and spend a week with me.' 'Have you a ranch there?' Yes: a little place.' 'What do you call a little place?' 'Well' 20,000 acres'—or 30 000 or 40,000, as the case may be. Everybody seems to have a little place. The other evening I met Gen Berl, an old army officer, who led one of Government explorations for a Pacific railroad. He resides in the South, below Los Angelos, though his summer is in Philadelphia. 'Have you a little little place too?' I asked. 'Yes, 25,000 acres on my home ranch, and 25,000 more in Northern California!' That 'home ranch,' if it were a square tract, would be 19 miles across. It is one-third as large as the State of Rhode Island. There are other men who own 300,000 acres apiece. Beale dispenses something of old Baronial hospitality. Every wayfarer is welcomed to table and bed without money and without price. Some nights thirty travelers are there entertained."

SPAIN.—A correspondent of a French newspaper, writing from Madrid, under date of June 29th, says: "In yesterday's debate in the Cortes a very active and intelligent working man, Mons. Alsina, Deputy for Barcelona, took an important part, his speech attracting great attention and being much applauded. This is the first time that a Spanish Parliament has seen a workman debating public affairs on terms of equality with a Spanish grandee and a Minister of Finance."

The Prohibitory Law in Boston.

Don't imagine, writes a Boston correspondent, that the sale of liquor was actually stopped last week. Pfaff had a Cochituate pipe that supplied the upper story of his building, let into a row of casks in his cellar, and those who knew how to get there, and didn't mind climbing three flights of stairs, could get their lager drawn from on innocent brass faucet over a stone washbowl. Saloons were extemporized in the rear rooms of unfinished buildings, disguised with a biliard table, or a lunch counter, with an approach over a plank swung in mid-air. Then the epidemic of club rooms broke out as it did two years ago, and even now the demand for pass keys is so great that one of our leading locksmiths yesterday declined an extensive order from Maine because his time and establishment were already occupied to their fullest extent in supplying the local demand. More especially since the let-up determined upon by the powers last Friday, since it is "intimated" that respectable and quiet drinking and selling is not to be interfered with, the club system has grown apace, and even now, after such a furious flourish of trumpets and the preliminary fatal charge of Major Jones's brigade, there is little difficulty in obtaining liquor in any quarter. How long this state of things may last depends not upon the moral necessities of the community, but upon the relative preponderance of the radical political cliques which are interested in the matter.

ICE IN ENGLAND.—The Wenham Lake Ice Company, originally established to furnish ice taken from Wenham Lake, Mass., to the citizens of London, now procures its supplies from the north of Europe. The headquarters of the Company are in the neighborhood of Christiana, in Norway. Near Droback, it has purchased a large lake, which every winter is frozen to a very considerable depth. In order that the water may be kept perfectly pure, the Company bought up the bordering land, and rigidly forbids the use of any manure upon it, so as to prevent any surface drainage from flowing into the lake. The ice, it is reported, is very nice and fresh, but the price at which it is sold in London is a great deal higher than that paid in the United States. Ice, however, in our warm climate, with the thermometer at 97 degrees, is a necessity for the preservation of food, but in the more moderate climate of England, is merely a luxury.

DURING a recent balloon ascension at Memphis, some interesting phenomena were noted. The highest altitude attained was 16,670 feet, at which elevation the temperature was 50 degrees Fahr. The balloon in ascending always assumed a whirling motion from right to left, while in descending it turned from left to right. Four good English lever watches were taken up, two of which stopped at the height of two miles. A very delicate pocket compass was completely depolarized, and though it has since been gradually regaining its polarity, it is still worthless. The aeronaut was a confirmed dyspeptic before he began ballooning, but several voyages have effected a radical cure.

ONE OF THE MOST ASTOUNDING CURES EVER PUBLISHED—ATTESTED BY OVER FIFTY WITNESSES.

The remarkable cure of Miss Fisher, of Beaver county, is one worthy of more than a passing notice, especially when so many persons are suffering not only with diseases of the eyes, and partial or total blindness, but likewise with other chronic ailments which Dr Keyser has treated with such astounding success.

The lady concerned was doomed to perpetual blindness, which through Dr Keyser's skill was completely removed, the truth of which has been vouched for by a sufficient number of witnesses to establish the fact beyond all cavil. The subjoined letter from the young lady's brother speaks for itself:

DR. KEYSER—This is the list of names that I have to the cure of my sister, Christiana Fisher. They were all willing to put their names down, and were very much astonished to see that you brought her sight so soon. My mother sends her thanks to you; she says "you are one of the greatest men in the world." She says if we had not come across you she believes her child would not be living at this time. We all join in sending our love and respects to you.

S. P. FISHER,
North Sewickley.

We, the undersigned, know of the cure of Miss Fisher, and bear willing testimony to the fact above stated.

DR KEYSER, may be consulted every day until 12 o'clock at his store, 167 Liberty street, and from 1 to 5 o'clock at his office, No. 120 Penn street.

THE WORLD GROWS WISER.

The human stomach has been a shamefully persecuted organ. There was a time when for every dereliction of duty it was punished with huge doses of the most disgusting and nauseous drugs. In vain it rejected them, and (literally) returned them upon the hands of those who administered them. They were forced upon it again and again, until its solvent power was thoroughly drenched out of it.

The world is wiser now than it was in that drastic era, when furious purgation and mercurial salivation were what Artemus Ward would have called the "main bolt" of the faculty, in cases of dyspepsia and liver complaint.

The great modern remedy for indigestion and biliousness is HOSTETTER'S STOMACH BITTERS, a preparation which has the merit of combining a palatable flavor with such tonic, aperient, and antibilious properties, as were never heretofore united in any medicine.

It has been discovered, at last, that sick people are not like the fabled Titans, who found prostration so refreshing that when knocked down, they rose from the earth twice as vigorous as before. When an invalid is prostrated by powerful depleting drugs, he is apt to stay prostrated; and the debilitated being aware of the fact, prefers the *building up* to the *knocking down* system of treatment.

HOSTETTER'S BITTERS meets the requirements of the rational medical philosophy which at present prevails. It is a perfectly pure vegetable remedy, embracing the three important properties of a preventive, a tonic, and an alterative. It fortifies the body against disease, invigorates and re-vitalizes the torpid stomach and liver, and effects a most salutary change in the entire system, when in a morbid condition.

In summer, when the enfeebling temperature renders the human organization particularly susceptible to unwholesome atmospheric influences, the Bitters should be taken as a protection against epidemic disease.

PEARL MILL FLOUR FROM NEW WHEAT.—We are now receiving a shipment of choice TENNESSEE NEW AMBER and WHITE WHEAT, which we are mixing with our Old Wheat in such proportions as to make an article of Family Flour equal if not superior to any in the market.

The merits we claim for this Flour are that of being manufactured from strictly choice number one southern Amber and White Wheat, with the most approved machinery, by experienced millers. Our Brands are:

THREE STAR PEARL GREEN BRAND, made from Choice White Wheat, unsurpassed as Pastry Flour.

TWO STAR DOUBLE EXTRA BLUE BRAND, from selected White and Amber Wheat, unsurpassed as a Family Flour.

PEARL RED BRAND from selected amber and best grades of Red Winter.

To prevent fraud in refilling our sacks we now seal them with date of manufacture.

SECURITY AND COMFORT for the traveling community.

J. B. HARRIS

Safety Fire Jacket, Car Heater and

MODERATOR.

For Smoke and Hot Air Flues, dispensing with the use of stoves and fire in or about the Passenger or Baggage Cars, with the attachment to graduate the heat to any temperature that may be desired without the possibility of firing the car or cars to which the Jacket may be attached. Having obtained of the United States Letters Patent for a Safety Jacket, which is warranted to resist the most intense heat that may be applied to it in the position and purpose for which it is intended.

It is a sure protection from accidents by fire, originating from defective flues or where iron pipes are used as conductors for smoke or heat. It is applicable to all piping that may become overheated, and is warranted to give perfect satisfaction where wood or other combustible material may be placed in close proximity thereto. I am now ready to apply my invention to stores, dwellings, factories, ships, steamboats, railroad cars, &c. Wherever pipes as conductors are made dangerous by being overheated and security desired, I will send on application right to manufacture or use the above invention. Also Territorial rights to such as may wish to engage in selling privileges either by State or county.

J. B. HARRIS.

Office at the "NE PLUS ULTRA PAINT WORKS," corner of Morris street and the Allegheny Valley Railroad, Twelfth ward, Pittsburgh, Pa. jy16:m38

STOLEN.

STOLEN.—MOCKING BIRD.— From the residence of SAMUEL RIDDLE, Esq., 195 Fayette street, Allegheny City, a MOCKING BIRD, a fine singer; had one of its toes broken. A liberal reward will be paid for its return

WANTED---HELP.

WANTED.—A good HORSE SHOER at ECCLES' SHOP, at south end Monongahela Bridge.

WANTED—IMMEDIATELY.— A WET-NURSE, and also a girl for house work. References required. Call at 25 VINE STREET, near Reed street, Pittsburgh.

WANTED—PRINTERS.—Two young men, who have had experience as newspaper compositors, will be needed in a few days. Address Box "A." GAZETTE office.

WANTED—HELP.—AT EMPLOYMENT OFFICE, No. 1 St. Clair Street, BOYS GIRLS and MEN, for different kinds of employment. Persons wanting help of all kinds can be supplied on short notice.

WANTED.—A good GARDENER, to go to the country, who can drive and work with horses; must be sober, honest and industrious. To such an one a good home and fair wages will be given. Call at or address JOHN J. A. YOUNG, Fruit and Confectioner, No. 83 Fifth Avenue Extension, for further information.

WANTED---BOARDERS.

WANTED. — BOARDERS. —A gentleman and his wife, or a few single gentlemen, can obtain pleasant rooms and good board by applying soon at 71 Liberty street, Pittsburgh. References exchanged.

WANTED---AGENTS.

WANTED.—AGENTS.—Everywhere, to sell JACKSON'S WINDOW SASH FASTENER. Can be put on any Window in a few moments without cutting or fitting. Will hold the window up at any hight desired, or lock it down. Four-fifths of all the windows have no fasteners on them. Agents are making $5,00 a day selling them. Samples sent by mail for 10 cents. Address J. C. JACKSON & Co., No. 1 Sixth street, Pittsburgh, Pa. d&F

WANTED.—AGENTS.—$75 to $200 per month everywhere, male and female, to introduce the GENUINE IMPROVED COMMON SENSE FAMILY SEWING MACHINE. This machine will stitch, hem, fell, tuck, quilt, cord, bind, braid and embroider, in a most superior manner. Price only $18. Fully warranted for five years. We will pay $1,000 for any machine that will sew a stronger, more beautiful, or more elastic seam than ours. It makes the "Elastic Lock stitch." Every second stitch can be cut, and still the cloth can not be pulled apart without tearing it. We pay agents from $75 to $200 per month and expenses, or a commission from which twice that amount can be made. Address SECOMB & CO., Pittsburgh, Pa., St. Louis, Mo., or Boston, Mass.

CAUTION—Do not be imposed upon by other parties palming off worthless cast iron machines, under the same name or otherwise. Ours is the only genuine and really practical cheap machine manufactured.

WANTED—AGENTS.—To sell the American Knitting Machine. Price $25. The simplest, cheapest and best Knitting Machine ever invented. Will knit 40,000 stitches per minute. Liberal inducements to agents. Address AMERICAN KNITTING MACHINE CO., Boston, Mass., or St. Louis, Mo.

TO LET.

TO-LET.—A furnished FRONT ROOM, with Gas, in old Sixth ward; rent moderate. Enquire of S. M., Liberty street.

TO-LET.—A HOUSE of Ten Rooms, newly refitted; in a most beautiful, shady and central location, on Eighth (Hancock) street, near Penn. Also another with six rooms. Apply at 277 Penn street.

TO-LET.—FIVE NEW HOUSES of SIX ROOMS each on Jalappa street, 5th ward, Allegheny, near Allegheny Avenue, one square from Manchester street cars. Enquire of T. M. SHOLES, 89 Federal street, corner Stockton avenue, or CHARLES P. STRIGHT, 171 North avenue, corner Webster street.

TO-LET.—VERY PLEASANT ROOMS, in suites or single, for lodging with or without board, at 75 FOURTH AVENUE.

TO-LET.—ROOMS, on Second floor, with Boarding. Location the most desirable in the city, with the conveniences of both rooms; the comforts of a private family, as few boarders are kept. 181 North Avenue, Allegheny City.

TO-LET.—ROOMS.—Two fine ROOMS in GAZETTE BUILDING. Apply at Counting Room, 84 and 86 Fifth avenue.

FOR SALE.

FOR SALE.—The BAR of the Saloon, No. 3 WYLIE STREET. Will lease the House for any number of years. Mrs. JENNIE GAZZOLO.

FOR SALE.—About 120 acres of land in the best situation for country seats; only 2 miles from the West Pittsburgh Ferry Landing. Will be sold altogether or in pieces to suit purchasers. Enquire of P. C. NAGLEY, office at the south end of the Monongahela bridge. je14-T&F

PETROLEUM MARKET.

OFFICE OF PITTSBURGH GAZETTE, THURSDAY, July 22, 1869.

The oil market was somewhat stronger to-day, and with an improved demand, there was an increased volume of business in the aggregate, and, compared with yesterday, prices ruled a shade higher. The demand seems to be more particularly for early deliveries, which is attributed to the fact that some of the "shorts" have commenced to cover, and it is said that exporters have been buying pretty freely for several days—notwithstanding prices are relatively higher here than in Europe. Private advices from Philadelphia, report an accumulation in stock, which it is alleged is larger now than it has been any time this season, and that exporters have no difficulty in getting all the oil they want provided they are willing to pay the prices.

CRUDE.

The crude market continues remarkably stiff, and notwithstanding the demand is only moderate, prices are still tending upward. Sale 1,000 seller till December first, at 14½; 1,000 last four months, at 14½; 5,000 last five months, at 14¼; 1,000 July, at 14¾; 1,500 spot, 14⅝; and 1,000 sellers all year, at 14½. As the last five months sold at 14½, sellers option all year, may be fairly quoted at 14½, which is an advance of ⅛ to ¾, within the past day or two.

REFINED.

Also is stronger, and compared with yesterday a shade higher. Sales 5,000 bbls July, at 31¾; 2,000 do, at 31¼; 1,000 each, August to December, at 32; and 1,000 August, first half, we presume, at 32; the last half being quoted at 32½. Buyers option all year, 31½.

PITTSBURGH MARKETS.

OFFICE OF PITTSBURGH GAZETTE, THURSDAY, July 22, 1869.

The general markets present nothing that is new or really important. The fine weather of the past two or three days has produced a more cheerful feeling in commercial circles, and hopes are now entertained that the crops will yet be secured in good condition. We notice in our exchanges that new wheat has commenced to flow pretty freely into some of the western markets, and we may look for pretty liberal arrivals here within the next two or three weeks, as it is likely that farmers will sell as quick as possible, in order to realize present prices. All accounts agree that the crop in this section of the country is better, both in yield and quality, than it has been for several years, and it is not probable, therefore, that the figures now current, will be susteined for any length of time.

Private intelligence from New York and Chicago to-day, report both wheat and flour strong, and it was inferred by some that the foreign news may have been the cause of it. As most of the stock in both of these places is in the hands of speculators, it is not improbable that they may be able to keep prices up for two or three week, especially if the European advices should in the slightest degree be in their favor, but the impression is, that not only wheat, but all kinds of grain must rule lower, once the new crop commences to move.

APPLES—In steady demand, and we can report regular sale at $3@4 per bbl.

BUTTER—Prime to choice is in fair demand, with sales at 23@25 while, common is very dull.

BEANS—Dull at $1,75@2.

BROOMS—Quoted as follows: No. 5 $6,50; No. 4 $6; No. 3 $5, No. 2, plain, $4,50, and market firm.

CHEESE—Sales Western Reserve, at 15; Hamburg, at 16; Factory, at 17; and Goshen, at 18.

CARBON OIL—Is quiet and unchanged; may be quoted at 27½@28 for 50 or 100 barrel lots, and 29@30 in small lots.

DRIED FRUIT—Very dull, and holders generally are anxious to realize, and as a consequence, they are working off all they can at the best figures they can get.

EGGS—In fair supply, and 20 cents seems to be the standard price.

FLOUR—Notwithstanding the firmness reported in the west, the market here, is quiet and dull—devoid of the least excitement, and the demand is very light. In regard to prices, there are no changes; and consumers are still being supplied at about Chicago prices, Spring Wheat brands being quoted at $6,50@7,00. Winter Wheat brands freely offered at $7,00@7,25, yet as we have already noted, the demand is very light and the sales of an unimportant character.

GRAIN—Winter Wheat is scarce and in steady milling demand at $1,35@1,40; there was a car of new Indiana wheat on sale, said to be very fine—held at $1,45. Oats firm but the demand is light; sales on track at 68@69, and in store at 70@72. Corn is scarce and firm; sale of 4 cars mixed at 90—prime Yellow quoted at 93@95. Rye is still quoted at $1,25 for small lots.

HAY—Baled is still quoted at $25@28, to the trade. Sales of new at $18@25, as to quality.

HEMP—Last sales at $205.

HUSKS—Sales at 2¾@3 cts per pound.

LIME—Cleveland Lime is quoted at $2 50, per bbl, and Common White at $1,75.

LARD OIL—Sales of No. 2 at $1,15@1,18 and No. 1 at 1,45@$1,48

POULTRY—Sales of spring chickens, by the coop, at 60@65c per pair.

POTATOES—Continue very dull with a supply largely in excess of the demand; sales at $1,50@2,00 per bbl, as to quality.

PROVISIONS—Market firmer and prices tending upward. Shoulders, 15; Ribbed Sides, 17¾@18; Clear Sides, 19; Plain Hams, 19; Sugar Cured Hams, 22½@23; Sugar Cured Shoulders, 17; Dried Beef, 21@22. Lard, 20¼@20½ in tierces and 21 in kegs. Mess Pork, $33½.

PEANUTS—Small sales at 12.

SALT—Allegheny River brands are quoted, by the car load, at $1,75@1,80.

Dry Goods Market.

NEW YORK, July 22.—The market is inactive, although their is an improved inquiry for sheetings at steady rates. Prints are inactive and a little irregular in price, ranging from 12½ to 13½c, as to style and make.

CHICAGO, July 22.—Cattle steady; best grades 15@25c higher and $4,25@5,25 for fair to good. Cows; $5,87½@7,50 for light to choice and $7,75@8,05 for extra prime shipping beeves. Hogs steady: $8,35@8,55 for common; $8,62½@8,75 for fair to medium and $8,90@9,12½ for good to choice.

The Pittsburgh Gazette

FLIRTING.

[From the London Saturday Review.]

There are certain things which can never be acurately described; things so shadowy, so fitful, so dependent on the mood of the moment, both in the audience and the actor, that analysis and representation are equally at fault. And flirting is one of them. What is flirting? Who can define or determine? It is more serious than talking nonsense, and not so serious as making love; it is not chaff, and it is not feeling; it means something more than indifference, and yet something less than affection; it binds no one, it commits no one, it only raises expectations in the individual, and sets society on the look-out for results; it is a plaything in the hands of the experienced, but a deadly weapon against the breast of the unwary; it is a thing so vague, or protean, that the most accurate measures of moral values would be puzzled to say where it exactly ends and where serious intentions begin. But again, we ask, what is flirting? What constitutes its essence? Every one has his or her own ideas of what constitutes flirting; consequently every one judges of that pleasant exercise according to individual temperament and experience. Faded flowers, who see impropriety in everything they are no longer able to enjoy, say with more or less severity that Henry and Angelina are flirting if they are laughing and whispering in an alcove together, probably at the most innocent nonsense in the world; but the fact that they are enjoying themselves in their own way, albeit a silly one, is enough for the faded flower to think they are after mischief, flirting being to her mind about the worst bit of mischief that fallen humanity can perpetrate. The watchful mother says that dancing together oftener than is necessary for good breeding and just the amount of attention demanded by circumstances is flirting; timid girls newly out, and not used to the old ways of men, think they are being flirted with outrageously if their partner fires off the meekest little compliment at them, or looks at them more tenderly than he would look at a cabbage; but bold spirits of both sexes think nothing worthy of the name which does not include a few questionable familiarities, and an equivoque or two, more or less "risky." With some, flirting is nothing but the passing fun of the moment; with others, it is the first lesson of the great unopened book, and means the beginning of the end; with some it is not even angling with intent; with others it is deep sea fishing with a broad, boldly made net, and taking all fish that come in as good for sport, if not for food.

Flirts are of many kinds, as well as of all degrees. There are quiet flirts and demonstrative flirts; flirts of the subtle sort, whose practice is by the eyes alone, by the manner, by the tender little sigh, by the bend of the head and the wave of the hand to give pathos and point to the otherwise harmless word; and flirts of the open, rampant kind, who go up quite boldly toward the point, but who never reach it, taking care to draw back in time before they really cross the border. This is the kind which, as the male flirt, does incalculable damage to the poor little fluttering doves to whom it is a bird of prey, handsome, bold and cruel; but this is the kind which has unlimited success, using as it does that immense moral leverage we call "tantalizing," forever rousing the hopes and exciting expectations, and luring on as an *ignis fatuus* lures one on across the marsh, in the vain belief that it will bring us to our haven at last. Then there is the race of male flirts great in the way in which they manage to insinuate things without committing themselves to positive statements. They generally contrive to give the impression of some mysterious hindrance by which they are held back from full and frank confession. They hint at fatal bonds, at unfortunate attachments, at a past that has burnt them up, or withered them up, at any rate that has prevented their future from blossoming in the direction in which they fain would have had it blossom and bear fruit. They sketch very vaguely the outlines of some thrilling romance; a few of the Byronic breed, add the suspicion of some dark and melancholy crime as a further enchantment; and when they have got the girl's pity and the love that is akin to pity, then they cool down scientifically, never creating scandal, never making any rupture, never coming to a moment when awkward explanations can be asked, but cooling nevertheless, till the thing drops of its own accord, dies out from inanition, and they are free to carry their sorrow and their mysteries elsewhere. Some men spend their lives in this kind of thing, and find their pleasure in making all the nice women they know madly in love with them; and if by chance any poor moth who had burned her wings makes too loud an outcry, the tables are turned against her dexterously, and she is held up to public pity—contempt would be a better word—as one who has suffered herself to love too well and by no means wisely, and who has run after a Lothario who would not let himself be caught. Then there are certain men who flirt only with married women, and others who flirt only with girls, and the two pastimes are as different as tropical sunlight and our northern moonshine; and there are some who are "brothers" and some who are "fathers" to their young friends—suspicious fathers on the whole, not unlike Little Red Ridinghood's grandmother the wolf, with perilously bright eyes, and not a bit of danger to Red Ridinghood in the relationship, how delightful soever it may be to the wolf. Some are content with cousinship only—which, however, breaks down quite sufficient fences—and some are "dearest friends" no more, and find that an exceedingly useful centre from which to work onward and outward. For if anything will do on which to hang a discourse, so will any relationship or adoption serve the ends of flirting, if it be so willed.

But what is flirting? Is it sitting away in corners, talking in low voices and looking personally affronted if any unlucky outsider comes within earshot, flirting? Not necessarily. It is just possible that Henry may be telling Angelina all about his admiration for her sister Grace, or Angelina may be confessing to Henry what Charley said to her last night, which makes her lower her eyes as she is doing now, and play with the fringe of her fan so nervously. May be, if not likely. So that sitting away in corners and whispering together is not necessarily flirting, though it may look like it. Is dancing all the "round" dances together? This goes far to decide flirting in the code of the ball-room. But if the two keep well together? If they really are fond of dancing, as one of the fine arts combining science and enjoyment, they would dance with each other all night, though outside the "marble halls" they might be deadly enemies—Montagues and Capulets, with no echo of Romeo or Juliet to soften their mutual dislike. So that not even dancing together oftener than is absolutely necessary is unmistakable evidence any more than sitting away in corners, seeing that equal skill and keeping well in step are reasons enough for perpetual partnership, making all idea of flirtation unnecessary. In fact, there is no outward sign or symbol flirting which may not be mistaken and turned round, because flirting is so entirely in the intention, and not in the mere formula, that it becomes a kind of phantasm, a proteus, impossible to sieze or to depict with accuracy. One thing, however, we can say, that taking gifts and attentions, offered with evident design, and accepted with tacit understanding, may be certainly held as constituting an important element of flirting. But this is flirting on the woman's side. And here you are being continually taken in. Your flirt of the cunningly simple kind, who smiles sweetly and seems flatteringly glad to see you when you come, who takes all your presents and acted expressions of love with the most bewitching gratitude and effusion, even, she, so simple as she seems to be, slips the thread and will not be caught. At the decisive moment when you think you have secured her, she makes a bound and is away; then turns round, looks you in the face, and with many a tear and pretty asservation will declare she never understood you to mean what you say you have meant all along; and that you are cruel to dispel her dream of a pleasant and harmless friendship, and very wicked indeed because you press her for a decision. Yes, you are cruel, because you have believed her honest; cruel, because you did not see through the vail of flattery and insincerity in which she clothed her selfishness; cruel, because she was false. That is woman's logic when brought to book and forced to confess that her pretended love was only flirting, and that she led you on to your destruction simply because it pleased her vanity to make you a victim. Then there are flirts of the open and rollicking kind, who let you go far, very far indeed, when suddenly they pull up and assume an offended air as if you had willfully transgressed known and absolute boundaries—girls and women who lead you on, all the way of goodfellowship, to knock you over when you have just got far enough to lose your balance. That is their form of the art. They like to see how far they can make a man forget himself, and how much stronger their own delusive enticements are than prudence, experience and common sense; and there are flirts of the artful and "still waters" kind, something like the female flirts spoken of just now; sentimental little puses—perhaps pretty young wives with uncomfortable husbands, whose griefs have by no means soured or scorched, but just mellowed and refined them. Or they may be of the sisterly class—creatures so very frank, so very sisterly and confiding and unsuspicious of evil that really you scarcely know how to deal with them at all. And there are flirts of the scientific kind—women who have studied the art thoroughly, and with the grave attention due to an art, and who are adepts in the use of every weapon known—using such according to circumstances and the nature of the victim, and using each with deadly precision. From such may a kind Providence deliver us! As the tender mercies of the wicked, so are scientific flirts—the women and the men who play at bowls with the human heart, for simply the stake of a whole life's happiness.

It used to be an old schoolboy maxim that no real gentleman could be refused by a lady, because no lady could presume beyond his line of encouragement. A *fortiori* no lady would or could give more encouragement than she meant. What are we to say, then, of our flirts, if this maxim is true? Are there really "no gentlemen" and "no ladies," according to the famous formula of the kitchen? Perhaps it would be said so if no gentlehood meant now, as it meant centuries ago, the real worth and virtue of humanity. For flirting with intent is a cruel, a false and a heartless amusement; and the time was when cruelty and falsehood were essentially sins that vitiated all claims to gentlehood. And yet the world would be very dull without that innocent nonsense which often goes by the name of flirting—that pleasant something which is more than mere acquaintance and less than formal loverhood—that bright and animated intercourse which makes the hours pass so easily, yet leaves no bitter pang of self reproach, that indefinable and undefined interest by which the one man or the one woman becomes a microcosm for the time, the epitome of all that is pleasant and of all that is lovely. The only caution to be observed is not to go too far.

California Outdoing Iceland.

The tales of travellers in Iceland, so far as geysers are concerned, are outdone by the realities in California. The natural bathing facilities at the California geysers make the locality one of the most popular resorts on the Pacific coast. The ordinary bathing establishment is a feature in its way. It is primitive in its construction, being built of rough boards, and portions of it covered with gunny sacks, yet contains natural steam, hot water and cold water baths. One room is directly over a volume of steam, which rises from the earth and fills the room, so that upon first entering it the heat and steam are almost unbearable, but in a few seconds becomes quite comfortable, and in a short time is luxurious. The bather having steamed himself sufficiently, two steps bring him beneath a stream of hot water, which pours through the roof in a continual volume, and is of just bearable heat. Having steamed and boiled, the bather steps a few feet and plunges into the running brook, which is waist deep with pure water, cool and fresh from the mountains above. The effect of this course of bathing is to leave the bather refreshed and invigorated in a wonderful degree. Separate establishments are erected for ladies, and with the same facilities.

LINDLEY MURRAY of grammar renown, is said to have resided for the space of two-and-twenty years in one front parlor without once going out, attended upon by a kindly old maid, enamored of his principles and his preterpluperfects, living chiefly on boiled mutton and turnips, and solacing himself in the intervals of conjugating verbs by grinding a barrel organ.

SPECIAL NOTICES.

☞ **SCHENCK'S PULMONIC** SYRUP, SEAWEED TONIC AND MANDRAKE PILLS will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the livor and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens into the lungs, and the patient outgrows the disease and gets well. This is the only way to cure consumption.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivaled success in the treatment of pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care,) that will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has Consumption, of course the lungs in some way are diseased, either tubercles, abcesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all billious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparation with the same remarkable success. Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenck, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond street, New York, every other Tuesday, and at No. 35 Hanover street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half dozen. Mandrake Pills 25 cents a box. For sale by all Druggists. mv19:151-d&F

☞ **DOCTOR WHITTIER CONTINUES** TO TREAT ALL PRIVATE DISEASES. That numerous class of cases resulting from self-abuse, producing unmanliness, nervous debility, irritability, eruptions, seminal emissions, and finally impotency, permanently cured. Persons afflicted with delicate, intricate and long standing constitutional complaints are politely invited to call for consultation, which costs nothing. Experience, the best of teachers, has enabled him to perfect remedies at once efficient, safe, permanent, and which in most cases can be used without hindrance to business. Medicines prepared in the establishment, which embraces office, reception and waiting rooms; also, boarding and sleeping apartments for patients requiring daily personal attention, and vapor and chemical baths, thus concentrating the famed mineral springs. No matter who have failed, state your case. Read what he says in his pamphlet of fifty pages, sent to any address for two stamps in sealed envelope. Thousands of cases treated annually, at office and all over the country. Consultation free, personally or by mail. Office No. 9 Wylie street, (near Court House) Pittsburgh, Pa. Hours 9 A. M. to 8 P. M. Sundays 12 M. to 2 P. M. Pamphlet sent to any address for *two stamps.* ap2

☞ **ELECTRICITY AS A CURATIVE.**—Dr. A. H. STEVENS has been using Electricity as a SPECIAL REMEDY in curing chronic as well as acute conditions WITHOUT MEDICINE for more than TEN YEARS, with unbounded success. A PAMPHLET, including all particulars, with certificates and reliable references, will be sent to any inquirer.

A few furnished rooms vacant, for boarding patients in the Doctor's family, if applied for soon. Office and residence, 2,001 ARCH STREET, PHILADELPHIA. my13:j22

☞ **BATCHELOR'S HAIR DYE.**

This splendid Hair Dye is the best in the world; the only true and perfect Dye; harmless, reliable, instantaneous; no disappointment; no ridiculous tints; remedies the ill effects of bad dyes; invigorates and leaves the Hair soft and beautiful. *black or brown.* Sold by all Druggists and Perfumers; and properly applied at Batchelor's Wig Factory, No. 16 Bond street, New York. my21:j62

☞ **EPILEPSY CAN BE CURED**—Those having friends afflicted are earnestly solicited to send for a Circular Letter of References and Testimonials, which will convince the most skeptical of the *curability of the disease.* Address VAN BUREN LOCKROW, M. D., 36 Great Jones street, New York. mh19:g28-d&F

☞ **THE MARRIAGE RING.**—Essays on the ERRORS OF YOUTH, and the FOLLIES OF AGE, in regard to SOCIAL EVILS, with certain help for the erring and unfortunate. Sent in sealed letter envelopes, free of charge. Address, HOWARD ASSOCIATION, Box P, Philadelphia, Pa. my21:j65-d&F

PROPOSALS.

NOTICE TO CONTRACTORS.

SEALED PROPOSALS addressed to the undersigned will be received until AUGUST 6th, 1869, for the

Graduation, Masonry and Ballasting,

OF THE BUTLER BRANCH

Of the Western Penn R. R.,

Extending from Freeport, Armstrong county, to Butler, Butler county, Pa., a distance of TWENTY-ONE MILES. Profiles and specifications can be seen at the Engineer's office, Freeport, Armstrong county, Pa., on and after July 26th.

G. B ROBERTS,
jy22:m41 CHIEF ENGINEER.

ORPHANS' COURT SALE!

By virtue of an order of the Orphans' Court of Allegheny county, Pa., dated June 26, 1869, the undersigned, Administratrix of the estate of Col. JAMES A. GIBSON, deceased, will offer at Public Sale, at his late residence in Pine township,

ON TUESDAY, JULY 27, 1869,

At 1 o'clock P. M., all that certain farm, messuage or tract of land, situate in Pine township, in said county, and bounded on the north by lands of Eliza Donald and the Grade Road; on the east by the heirs of Fogle; on the south by lands of L. R. McAboy, and on the east by lands of Mrs. Thos. Gibson and Abraham Marshall, containing 113 acres and 18 perches, upon which is erected a Double Frame Cottage, one and a half story high, having five rooms on the first floor, four of said rooms having fine marble mantle pieces and three rooms on the second floor; stable, carriage house and other outbuildings; excellent water, and the land in good cultivation.

Also, a certain other tract of land situate in Pine township, bounded on the north by lands of Rev. L. R. McAboy and Cross Prest. Church; on the east by lands of Abraham Marshall and Samuel Emmett; on the south and east by lands of Rev. L. R. McAboy, containing 93 acres and 30 perches, upon which is erected a good stone and log dwelling or tenant house.

Also, a certain other tract of land situate in said Pine township, bounded on the north by lands of Mrs. Herron; on the west by lands of Mrs. Eliza Donald; on the south by lands of Rev. L. R. McAboy and McMarlin, and on the east by land of Alexander M'Clintock, containing 135 acres and 15 perches, upon which is erected a good tenant house.

All of the aforesaid tracts of land are well watered and improved farming lands.

Also, a certain other tract of land situate in Shaler township, adjoining lands of Hugh and Thomas Miller, containing 3 acres, underlaid with coal, together with a right of way to the coal land of said James A. Gibson and Robert Morrow, and with the use of John Sword to said Gibson and Morrow of 90 acres of coal; upon said 3 acres is erected a dwelling.

For further information inquire of the undersigned, or of

SAMUEL PALMER, Attorney-at-Law.

No. 87 Fifth Avenue, Pittsburgh.

TERMS OF SALE—One-half of the purchase money upon the confirmation of said sale, and the balance in one year from the date of said confirmation, with interest, secured by bond and mortgage.

CITY AND SUBURBAN.

THE GAZETTE *is furnished in the city the six days of the week for* 15 *cents per week; by mail,* $8 *per annum:* 3 *mos.,* $2.

Scarce.—Items of news, on the South Side, were exceedingly scarce yesterday.

Council Meeting.—The regular monthly meeting of City Councils will be held on Monday next at two o'clock P. M.

Pure Lake Ice.—Our old friend John White, Jr., 856 Penn street, is sole agent for Chautauqua County Lake Ice, and will furnish the Trade at short notice.

Chartiers Railroad.—We learn that work was commenced on the Chartiers Valley Railroad, at Bell's Tunnel, on Monday last.

Fornex Et Cet.—Margaret O'Conner made information before the Mayor yesterday, charging Thomas Mulveyhill with fornex et cet. A warrant was issued for his arrest.

Ice Cheap.—Mr. John White, Jr., announces through our columns, that he is prepared to furnish the very best Chataugua county, New York, Lake ice, cheaper than any house in the city. His number is 336 Penn street.

Disposed of.—Two other Sunday cases have been disposed of. Alderman Koenig yesterday rendered decisions, imposing fines of $25 upon John Snyder, for selling ice, and Mr. Herbst of the Ordinary, for selling ice cream on Sunday.

Teachers Elected.—For the Eighth Ward Public School, Allegheny, the following teachers have been elected for the ensuing year: Principal, Miss Helen Renwick; Intermediate, Miss A. L. Haller; Primary, Miss Sue Omsler. One teacher remains to be elected for the Grammar Department.

Another Seizure.—Collector Davis yesterday seized five empty whisky barrels at the establishment of Glockner & Co., St. Clair street. It appears the liquor had been removed from the barrels, and the stamp had not been cancelled or removed. The penalty is a fine of $300 for each and every package so discovered.

The Liquor Law.—Mrs. A. Kirk, residing at 45 Arthurs street, had a hearing yesterday, before Alderman Neeper, on an information for selling liquor without license, preferred by David Acor, upon which she gave bail for Court. She was also charged with selling liquor to minors, but this case was held over for a hearing.

"Coup De Whisky."—"Johnny" Noyes, who, it appears, is a habitual drinker of intoxicating liquors, while staggering along Magee street yesterday fell on the sidewalk and acted like one affected with sun stroke, but on examination it was ascertained that it was only a "whisky fit." He was removed to his residence when he soon recovered.

Unprovoked Assault.—Health Officer, J. B. Williams, made information before Alderman McMasters, yesterday morning, against Wm. Bowers for assault and battery. Mr. Williams says he was in the neighborhood of the Copper Works at Soho, Wednesday afternoon, when Bowers came out of a drinking saloon in the vicinity in an intoxicated condition, and attacked him without provocation, beating and abusing him in a shameful manner. A warrant for the arrest of the accused was issued.

Off the Track.—The door of a car in an empty freight train falling to the track at Armstrong Station, twenty-six miles from the city, on the Connellsville Railroad, caused seven of the cars to pitch off, resulting, we believe, in no other injury than to the cars and in the detention of the up and down trains on Thursday for one or two hours, the train due at ten o'clock not arriving until twelve, and the evening train due at six o'clock arriving at seven. All the trains are on time to-day.

Drowned.

A boy, named Burns, aged twelve years, whose parents reside on Second avenue, was drowned yesterday afternoon by falling off a raft of logs lying above the Monongahela Suspension Bridge, on this side of the river. A vigorous effort was made to save the boy's life by parties who witnessed the accident, but of no avail, as the body was drawn under a flat boat and did not come to the surface. The body has not yet been recovered, but active search was being made for it up to a late hour last evening.

Felonious Hoeing.

John Mahoney and Michael Selferth, laborers, employed as mortar and brick carriers in the erection of St. Andrew's Church, Hand street, got into an altercation yesterday, when, it is alleged, Michael made an assault upon John with a hoe, striking him on the ear, splitting it in twain, and otherwise injuring him about the head and face. John objected to such an immoderate use of the hoe and made information before Alderman McMasters last evening, charging Michael with felonious assault and battery. A warrant was issued for his arrest.

Separated.

There has been trouble in the Archibald family, denizens of the Ninth ward. Yesterday Ellen, the wife, manifested her feeling toward Thomas, the husband, by applying several very appropious epithets to him. He in turn struck her with his fist, raising, she says, a lump "just behind her ear." Her next movement was to the office of Alderman Koenig, where she lodged information against Thomas for assault and battery. He followed this with a movement equally stragetic, and complained of her before the same official for disorderly conduct. The two met in the presence of the Alderman and settled their differences, he settling the costs, and both then agreeing upon divergent paths through life hereafter.

Assaulted an Old Man.

Alderman McMasters yesterday issued a warrant for the arrest of William and John Thompson, charged with felonious assault and battery on oath of Cyrus Fitch. Fitch is an old man who leads a hermit's life in a small shanty which he erected, on Chartiers creek, a short distance from the city. Wednesday he states, the accused amused themselves by throwing stones at his domicil, and when he came out to remonstrate with them, they turned their attentions to him, pelting him with stones, and finally breaking in the door of the house. He received several very severe cuts and bruises from the flying missles. He represents the attack to have been altogether unprovoked and only to be accounted for by the characters of the accused, who he states, bear the reputation of being great desperadoes.

ALLEGHENY COUNCILS.

Regular Meeting—Petitions—Reports of Commitees—Resolutions, &c.

A regular semi-monthly meeting of the Select and Common Councils of Allegheny city, was held on Thursday evening, July 22d, 1869.

Select Council.

Members present: Messrs. Callery, English, Gwinner, Morrison, Gilmore, Patterson. J. C., Phillips, Riddle, Reiter, Wettach, and President McBrier.

The minutes of the previous meeting were read and approved.

PETITIONS.

Mr. Wettach presented a petition for water in the First ward. Referred to the Water Committee.

Mr. Riddle, a petition for water on Lane alley. Referred to the Water Committee.

Also, a petition for opening Lane alley. Referred to the Street Committee.

Mr. Phillips presented the resignation of Mr. Hartman, a member of Select Council from the First ward. Accepted.

Also, a resolution instructing the Mayor to issue his proclamation for an election to fill the vacancy. Adopted.

REPORT OF THE WATER COMMITTEE.

Mr. Wettach, Chairman of the Water Committee, presented a report recommending the laying of water pipe on Beech and Manhatten streets, accompanying which was a resolution instructing the Superintendent of the Water Works to have the same laid.

The report was received and the resolution adopted.

FROM THE STREET COMMITTEE.

Mr. J. C. Patterson, Chairman of the Committee on Streets, submitted the following report:

Gentlemen: Your Committee on Streets would report favorably on the following matters:

Lateral sewer on Pitt alley; grading and paving Evans alley from Nixon street to Washington avenue; lateral sewer from east line of Rebecca street to Belmont street sewer; grading and paving Montgomery avenue from Union to Sherman avenues; lateral sewers on North avenue from Boyle to Palo Alto streets. Accompanying the report were ordinances providing for the grading and paving and the construction of the sewers.

Relative to changing the grade of River avenue from Bridge street to McFadden street, your committee report adversely.

Mr. Calley moved that the portion of the report relative to the change of grade on River avenue be referred back to the committee. No action.

The report was accepted and the ordinances referred to in the same were adopted, and under a suspension of the rules, passed finally.

RESOLUTIONS.

Mr. English presented the following resolution:

Resolved, That the Committee on City Property have the houses in the Third and Seventh wards numbered according to the provisions of an act of the Legislature providing for the same.

Mr. Riddle moved to amend so as to apply to all unnumbered houses in the city.

The amendment was adopted, and the resolution as amended was passed finally.

UNFINISHED BUSINESS.

The unfinished business from last meeting of C. C. was then taken up.

The report of the Market Committee recommending the erection of new scales in the Second ward. Adopted in C. C. S. C. concurred.

The report of the Committee on Fire Engines and Hose, adopted in C. C. at last meeting S. C. concurred.

Petition for water on Frazier street in C. C. referred to the Committee on Water, with power to act. In S. C. referred to the Committee on Water.

Petition for hitching posts in Second ward Diamond square. In S. C. referred to Committee on City Property.

In all other business from C. C. not reached at last meeting, S. C. concurred.

The report of the viewers on the opening of Perry street, confirmed in S. C. June 8th, 1859, and C. C. concurring in that action June 20th, which action was by that body reconsidered July 10, and referred back to the viewers, was then taken up.

On motion of Mr. English, S. C. nonconcurred with C. C., and referred the matter to the Street Committee.

In all of the above business not otherwise noted S. C. concurred.

Adjourned.

Common Council.

Council met at eight o'clock, President Slack presiding.

Present: Messrs. Blair, Comley, Gilliland, Grenet, Hanna, Krebbs, Kopp, Long, Megraw, McNeill, Price, Porter, Rebman, Siedle, Tate, Voegtly, Warner, and President Slack.

Minutes of preceding meeting read and approved.

RESOLUTIONS, PETITIONS, &C.

Mr. Hanna presented a petition asking for the grading of School street, First ward, from Robinson street to Allegheny river.

Referred to Committee on Streets.

Mr. Voegtly offered a resolution instructing the Street Commissioner to place a culvert on Ohio street, at its intersection with Chestnut street. Adopted.

Mr. Siedle, a resolution instructing the City Engineer to report a profile of grade for Ohio street, in the Eighth ward. Adopted.

Mr. McNeill, a resolution instructing the Committee on Ordinance, to report an ordinance amending section fifth of the ordinance defining the duties of the City Controller, so as to embody the recommendation contained in the last annual report of the Controller. Adopted.

Mr. Price, petition for water pipe on Taggart street. Referred to the Committee on Water.

Mr. Comley, a petition from the citizens of the Seventh ward asking for the establishment of a grade for Willow street.

Referred to Committee on streets.

Mr. Voegtly, a resolution instructing the City Engineer to report a profile of the grade of Steep street, Third ward. Adopted.

UNFINISHED BUSINESS.

The ordinance authorizing the construction of a sewer on Pasture Lane through the West Commons, to connect with the Montgomery avenue sewer was called up. The ordinance passed finally in Select Council at a previous meeting but had been laid over after the first reading in Common Council. Mr. McNeill called for the yeas and nays upon its final passage, which resulted in 11 yeas and 6 nays. So the action of Select Council was concurred in.

"PUSHING THE RIVER."

Mr. Megraw offered the following:

Resolved, That the City Solicitor be instructed to report what is being done in regard to the suits against the parties on the Pittsburgh side of the Allegheny river, for filling up the channel of said river.

Mr. Megraw in offering the resolution, said he wished to ascertain if the Solicitor was worth anything. The matter had been in the hands of several solicitors, and none of them had accomplished anything. If something was not done soon, the river would be meandering through the streets of Allegheny. He wanted to know if the people in Pittsburgh had a right to "push the river wherever they pleased."

Mr. Long asked for information in reference to the nature of the suits.

Mr. Megraw explained that high and low water lines had been established for the river. That certain persons on the Pittsburgh side, the owners of mills, had filled up about seventy or eighty feet over the established line. He wished to know if any definite action had been taken or could be taken to make these parties comply with the law. They had been sued, and the matter had been put off from time to time for several years.

Mr. Long suggested that perhaps Allegheny City had no right to compel Pittsburghers to comply with laws.

Mr. Megraw said this was merely a test. If the parties who had been sued, Messrs. Zug & Co., were made to comply with the law then, all the others owning mills on either side would be settled.

Mr. McNeill thought there was no doubt about the law, but there seemed to be an "extreme delicacy with the Solicitors" to touch this matter. If the Solicitor was "stirred up" a little now, he would soon fall back into the old track. There seemed to be a "strange mesmerism" come over the Solicitors whenever the question of high and low water lines was talked of. He favored the employment of a lawyer who would make it his especial business. It would be better to pay $5,000 and have it settled at once.

After some further discussion the resolution was adopted.

RESIGNATION.

Mr. Hanna presented the resignation of his colleague, Mr. H. M. Long, as a member of Common Council from the First ward.

The resignation was accepted and the Mayor instructed to issue his proclamation for a special election to fill the vacancy.

THE LIBRARY AGAIN.

In the business from Select Council a resolution in reference to the library was called up.

Mr. McNeill moved to recede from former action and concur in the action of Select Council, in authorizing the construction of a room for the City Engineer by an alteration in the Common Council chamber according to a plan prepared by the architects, thus allowing the Library the continued use of the room, which they now occupy.

Mr. Megraw contended the room was needed by the City Engineer, and that the library room was the only one which would suit him. He thought the Councils had no right to take a room out of the city building and donate it for the use of a private organization. As to the argument that it was a good institution and for the benefit of the poor mechanics and similar persons this was altogether a mistake. It was only a place for young men who could go there "fixed up," and was no benefit at all to any others.

Mr. McNeill thought this was one of its great recommendations. If it induced young men to "fix up," and encouraged them in such a practice, it was worth all the mere pittance which had been or would be expended in keeping it up. If knowledge by it was disseminated among young people, and a place of instruction and amusement thus afforded them, it was certainly worthy the support which it asked.

Mr. Hanna said the city needed a room for one of its officials, the room was in the building, and the question was whether it would be taken. The proposed alteration would cost at least $2,000. It had always been an important question how the Treasury of the city could be guarded. He thought this was a point which should be considered in the matter.

Mr. Warner said if the room was taken from the Library a vault would have to be built, and then the City Controller's office would be destroyed by the foundation of the vault.

Mr. Price favored the proposed alteration. He thought the Library should be encouraged, and made a strong appeal in its favor

Othor remarks were made by Messrs. Hanna, Megraw, Warner and McNeill, when the yeas and nays were called, with the following result: yeas 11, nays 5, So the action of Select Council was nonconcurred in.

Council then adjourned.

The New Market House.

MESSRS. EDITORS: For a long time the citizens of the upper portion of the city have been awaiting some action in the matter of a new market house, and now that it has come up before Councils they earnestly hope it will be promptly acted upon. The question of a site was of course the first to be settled. This, the Committee to whom the matter was referred, have very satisfactorily decided in their recommendation of the "Lyons Lot," on Pennsylvania avenue, which meets with the hearty approval of a large majority of the interested parties. There is no question but that a market is absolutely needed in this section of the city, and as this is the most central for that reason it is certainly the most eligible and proper site. It is right in the heart of one of the most populous sections of the city, residents of which are now paying nearly as much for transportation of their purchases from the market in the Diamond, as would sustain the proposed new enterprise. The ground is offered at a very reasonable price, much less than it could easily be sold for if disposed of in lots, and if it is not secured now, another year will unquestionably find the price considerably advanced. The citizens of the Sixth, Seventh, Eighth, Eleventh and Thirteenth wards and those in the rapidily growing precincts, out towards East Liberty, who are especially interested in this matter, are satisfied perfectly with this location, and are anxious to have the market house erected thereon. As they will be its patrons, and as such its support, certainly their preference is worthy of consideration. Another point not to be overlooked is the undoubted fact that a market house must be built in this neighborhood sooner or later, and the sooner it is done, the more favorable the terms can be made.

But, Mr. Editor, we don't wish to dictate, but respectfully urge Councils to decide upon the case as soon as possible, as Select Council has alreaded adopted the recommendations of the Committee. We hope Common Council at the next meeting will take some steps toward finishing the business. TAXPAYERS.

A New Restaurant.

Mr. James Nicholson, of whose fitness for the enterprise several years' acquaintance gives us the highest confidence, has fitted up with excellent taste the room No. 24, Federal street, Allegheny, midway between the bridge and the railroad depot, and is this day opening the same to public patronage. The situation is well chosen for the many who pass and repass it daily. They cannot fail to be suited, and a trial will convince all that Mr. Nicholson is the right man in the right place. A free lunch of all that is good will be set up to-day and to-morrow.

THE CONNELLSVILLE RAILROAD.

Meeting of the Railroad Committee of Councils—They Report an Ordinadce Granting the Right of Way to the Connellsville Railroad.

A meeting of the Committee of Councils on Railroads was held at the Mayor's office yesterday afternoon, to take into consideration the matter of granting to the Connellsville Railroad Company the right of way through the city, to enable said Company to make connections. The meeting was called to order by Mr. Ogden, Chairman of the Committee, at half-past ten o'clock.

REPORT OF THE SUB COMMITTEE.

Mr. Edwards, from the Sub-committee, appointed at a previous meeting, to investigate the matter and ascertain the best route over which to make such connection and report to the Committee, submitted the following:

Gentlemen: The undersigned Sub-Committee, appointed to take into consideration and prepare an ordinance, granting to the Connellsville Railroad such right of way as would enable it to make western connections, respectfully report: After a full and careful examination and inquiry respecting the propriety of allowing the said road right of way through the city by way of Cherry alley, your Committee came to the conclusion that the granting of such right would be inimical to the interests of the city and property holders, and the use of such route dangerous to life and generally obnoxious to citizens.

The feeling of this Committee, as indicated at the last meeting, seemed to be against it also, and we therefore turned our attention in search of another route that would be more favorable and less inconvenient and dangerous. After a careful examination and full investigation, your Committee unanimously decided upon the Water street route, which had before been referred to in the Committee. By this route but little, if any damage, will be done to property and business usual to the wharf, and Water street will be impeded to an extent hardly appreciable, while the shipping and steamboat interests, as we believe, will be greatly benefitted. Indeed to our own knowledge, the simple extension of the railroad down Water street has been asked by steamboatmen and merchants. The Committee, however, looked further and took into consideration the demand of the oil trade and other interests on Duquesne Way for increased and better railroad facilities, an examination convinced us that if at all practicable, the extension of the road up Duquesne Way so as to form connections with the Allegheny Valley and other roads, especially the former, would be of immense importance and benefit, and of yearly increasing interest to the city and her manufactures and trade. This, in addition to the construction of the proposed bridge at the Point, is worthy of careful consideration. Your Committee has had an ordinance prepared by the City Solicitor in accordance with the wiews herein briefly expressed. This ordinance we respectfully submit, and ask that it be given that attention which the importannce of the matter demands.

The accompanying ordinance was read. It provides for the construction of a road down Water street to the Point and thence to the Allegheny Valley railroad depot, via. Duquesne Way, and it requires that the connection be made within one year after the acceptance of the ordinance by said company.

After considerable discussion the report of the sub-Committee was adopted, and the ordinance will be recommended to Councils for consideration.

Several communications from Mr. Hughart were read, relative to the proposed connections.

On motion of Mr. Kirk it was resolved to hold the meetings of the Committee at night.

On motion adjourned.

Fire Yesterday Morning.

Yesterday morning between two and three o'clock, fire was discovered in the studding separating the National Hotel building, No. 184 Ohio street, Allegheny, from the adjoining house. The inmates of the hotel and house were quickly aroused, and a hole cut in the roof of the hotel, when the fire was subdued, not, however, without considerable difficulty, by the firemen. The buildings were deluged with water, suffering more from this cause than the fire. The National was owned and occupied by Samuel Graber, who looses about $1,500, which is covered by insurance. M. G. Herman occupied the adjoining house as a shoe store and dwelling. He lost, principally in damage to his goods from water, about $1,500. His insurance in the Franklin, Citizens and Pennsylvania Insurance Companies upon home, furniture and goods, amounts to $3,800.

The origin of the fire is unknown. It was first discovered by one of the boarders, who raised the alarm. Mr. Herman was aroused by a night watchman and experienced considerable difficulty in rescuing his family from suffocation, the premises being entirely filled with smoke. At one time the fire raged with great fierceness, and fears of an extensive conflagration were entertained, which, however, was prevented through the energetic exertions of the firemen.

Only Eight Days Now.

J. W. Barker & Co., 59 Market and 20 Sixth (late St. Clair) street, must, by order of the administrator of the senior member of the firm (deceased) close out their entire stock of summer, fall and winter goods in eight days. Wholesale and retail buyers should make a note of this, as every article has been marked down to prices that will secure their sale. Purchasers should call early in the morning, as the rush during the day is so great that with their additional hands, they find it difficult often to wait upon all. Let all our readers go to Barker's and lay in their supply of fall and winter goods at one-half the cost they will be compelled to pay when the season comes round.

For an elegant shop, an easy chair, a comfortable shave, a perfect hair-dye, for fashionable hair cutting (of adults or children) or for skillful leeching, cupping or tooth drawing, call at Rode's, corner of Federal and Isabella streets, Allegheny. F

Opportunity to Make Money.—Twenty men or ladies wanted, of good address, to canvass for the most popular Sewing Machine now in use. Apply after three o'clock, at office of Howe Sewing Machine, No. 4 Sixth street, late St. Clair. S:T:TH:S.

For fashionable hair-dressing, plain or by curling, and a frizzle, for a luxurious shave or bath, and for skillful cupping and leeching, call at Williamson's elegant saloon at No. 190 Federal street, Allegheny. F

Summer Silks, Thin Dress Goods, Marseilles, cheap, at Bates & Bell's, to close the stock.

Pure Ice Cream, made from pure country cream. Youngson & Co., Smithfield street, one square from Fifth avenue.

Bates & Bell are selling Silk Mantles, Lace Mantles and Linen Goods cheap.

Great Reduction for Cash Only.

Owing to the death of the senior member of the firm, and the necessity of settling the estate immediately, we propose to make a great reduction in the prices of our entire stock of dry goods, commencing the sale on Monday, July 19th, and continuing until the first day of August. Many of the goods will be sold at much less than cost, and will comprise fall and winter, as well as summer goods. Those desirous of obtaining some of the *greatest bargains ever offered* in dry goods should not neglect this sale at the storerooms of J. W. Barker & Co., 59 Market street and 20 Sixth (formerly St. Clair) street. J. W. BARKER, JR., Administrator.

Economical, Reliable, the Best.

We mean DOOLEY'S BAKING POWDER It is superior to all others in the market. Free from any injurious substances, and so nicely compounded that the contents of each box will make light, sweet, healthy biscuits, rolls, pastry, &c., with uniform success. Only two teaspoonfuls to a quart of flour is necessary, while those of ordinary manufacture require from one-third to a half more. Ask your grocer for Dooley's Chemical Yeast Baking Powder, and take no other. Try it and be convinced. MWF

"Fresh as a Maiden's Blush" is the pure peachy Complexion which follows the use Hagan's Magnolia Balm. It is the True Secret of Beauty. Fashionable Ladies in Society understand this.

The Magnolia Balm changes the rustic Country Girl into a City Belle more rapidly than any other one thing.

Redness, Sunburn, Tan, Freckles, Blotches and all effects of the Summer Sun disappear when it is used, and a genial, cultivated, fresh expression is obtained which rivals the Bloom of Youth. Beauty is possible to all who will invest 75 cents at any respectable store and insist on getting the Magnolia Balm.

USE NOTHING but Lyon's Kathairon to dress the Hair. MWFF.

Youngson & Co., Confectioners, corner of Diamond alley and Smithfield street, keep the best ice cream in the city.

Ten Days.—The entire stock of J. W. Barker & Co, 59 Market and 20 Sixth streets, must be closed out. Buyers of Dry Goods, both wholesale and retail, will find this a rare chance for securing bargains. The stock is complete, all new and fresh, to be closed out, as the estate of the senior member of the firm (deceased) must be settled by the 1st day of August. J. W. BARKER, JR., Administrator.

Shawls, trimmings, lace goods, fancy articles, and everything appertaining to a first class trimming store will be found in endless variety, style and coloring at Moorhead's, No. 81 Market street.

Notice.—Persons indebted to the concern of J. W. Barker & Co., are requested to make immediate payment. Also, parties having claims against the said firm will please render them previous to the 1st day of August. J. W. BARKER, JR., Administrator.

Linen Goods of all kinds at Bates & Bell's.

Tents for Camp Meetings.—Hunting and Fishing parties; "A," "Wall" and "Hospital" tents, good as new, at J. H. Johnston's, 179 Smithfield street, Pittsburgh. 22:2w

Gentlemen—Take your lady friends to Youngson & Co., corner of Diamond alley and Smithfield street, for your ice cream. They charge the same for pure cream as others do for milk.

Care of the Watch.

1. Do not make a toy of it for yourself or the children. Never open it except for necessary purposes.

2. It should be regulated to about mean temperature, and always kept as near the same temperature as possible.

3 It should not be allowed to stop. Better that it should be kept running all the time.

4. Keep it in as uniform a position as possible. If in the pocket, better that the pendent ring be upright.

5. Out of the pocket, if it hang on the wall, let it be on some soft surface. Never allow it to lie on bare marble or other hard surface. If it lie on any surface, let it be with face up and pendent ring turned under, so as to keep the upper part most elevated.

6. Let your key fit exactly, and be kept perfectly clear. By the former you may save breaking chains, mainsprings, ratchets, clicks, &c.; by the latter, prevent introducing much dust.

Wind, if possible, at the same hour each day.

8. While winding, hold you watch steadily in your left hand. Turn only your key, and that firmly, evenly, avoiding all quick motions or jerks.

9. Set your watch with a key; never turn the hands by any other way. You may turn the hands either way without danger, if they do not move very hard.

10. On regulating a watch, should it be going too fast, move the regulator a trifle toward the "slow," and if going slow, do the reverse; you cannot move the regulator too gently at a time, and the only inconvenience that can arise is, that you may have to perform that duty more than once.

11. Take note that your watch, even if a good one, will sometimes be guilty of "irregularities" in consequence of change of temperature, from the effects of which none but a chronometer is exempt; also from the jerks and jars of travel.

12. If you find any difficulty which you do not understand, go at once to a good watchmaker.—*Kemlo's Watch Repairer's Guide.*

THE Jewish Synod at Leipsic, which has commenced its sittings, is attended by eighty Rabbis, scholars and representatives of congregations. Dr. Goldschmidt, the Rabbi of the city, opened the assembly by an eloquent speech. He dwelt on the fact that the Synod was not now attended by men occupying religious offices alone, but by those of the most various callings. Professor Lazarus, of Berlin, was elected President, and Dr. Geiger, of Frankfort-on Main and Ritter von Wertheimer, of Vienna, Vice Presidents.

A GERMAN named Carl Schell, married a young girl just from the Faderland, at Omaha, some three weeks ago, in a most peculiar manner. He purchased a pair of ear-bobs, put them in her ears, and informed the lady that "this little ceremony constitutes a marriage in America." After a week had passed he took them out, and informed her of another piece of news, viz: "This little ceremony constitutes a divorce in America." He is now in jail for stealing a trunk.

THE people who have visited Niagara this season have noticed a very marked change in the appearance of the Horse Shoe as well as the American Falls. The former has evidently given way almost thirty or forty feet in that part of the cone where the water looks so green, on the side nearest Goat Island, and it is estimated by geologists that from one to two hundred tons of rock must have fallen. This has not marred the appearance of the Falls. It is now a settled fact beyond question that Niagara does cave in some each year, and the change which has taken place this summer is probably the most extensive in the recollection of the present generation.

—At a meeting held at St. Louis Wednesday, to consider how the one hundredth anniversary of the birth of Humboldt shall be celebrated on Sept. 14th, it was decided to have a festival, with music and orations in the different languages. A proposition was also discussed to establish a Vivarian, such as has been erected in Hamburg and Berlin, in memoriam of the great naturalist. A Vivarian is a house of considerable extent, in which species of the most interesting living animals from all parts of the world are kept in a condition which comes as near as possible to the real mode of life in their natual state. The heavy cost of such an institution prevented the adoption of the proposition, and the subject was referred to a committee for further action.

—Just as the train was leaving the depot at Quincy, Ill., on the Toledo, Wabash & Western Railroad, a watchman assisted an intoxicated man in a car. When the train was fairly in motion, the man attempted to pass from one car to another, fell beneath the train and was torn to pieces. Nothing was found on the body to give any clue to the man's name or whence he came, but it is believed his name is Lynch.

—Col. C. G. Hammond of Chicago, one of the most energetic and public spirited railway managers in the United States, has entered upon his duties of Superintendent of the Union Pacific Railway at Omaha.

MARRIED.

GLENN—HARRIS—Thursday, July 15th, at the First Presbyterian Church, Allegheny City, by Rev. E. Swift, Col. JOHN GLENN, of Pittsburgh and Miss BELLA M. HARRIS, daughter of Isaac Harris, of Allegheny City.

DIED:

REED—On Wednesday morning, at 1 o'clock, at his residence, near Soho, RALPH REED, in the 58th year of his age.

The funeral will take place from his late residence, Soho, on FRIDAY, July 23d, at 2 o'clock P. M.

CARTER—On Wednesday, July 21st, Mrs. MARY, widow of the late James Carter, Esq., in the 74th year of her age.

Funeral will take place from her late residence, Union Township, Washington Pike, at 10 o'clock on FRIDAY MORNING, July 23d. Carriages will leave Fairman & Samson's office at 9 o'clock A. M.

FORSTER—On Thursday, July 22d, 1869, at 3 o'clock A. M., GEORGE FORSTER, in the 68th year of his age.

Funeral from his late residence, Shalersville, FRIDAY, July 23d, 2 o'clock P. M. The friends of the family are respectfully invited to attend.

RUSH—Thursday evening, July 22d, ISABELLA, daughter of Clarissa F. and Marker Rush, aged 3 years and 3 months.

Funeral from the Rush House THIS (Friday) AFTERNOON, at 4 o'clock. The friends of the family are respectfully invited to attend.

TAGGART—On Tuesday, July 22d 1869, BESSIE, infant daughter of John J. and Mary Taggart.

Funeral will take place from the residence of her parents, Minersville, TO-DAY, 23d inst., at 1 o'clock. Friends of the family are respectfully invited to attend.

STEWART—On Wednesday evening, July 14, at the residence of her parents, near Library, Allegheny county, Pa., CAROLINE, daughter of William and Frances Stewart.

THOMPSON—At Philadelphia, on Thursday morning, July 22d, Mr. SAMUEL THOMPSON, SR., father of Samuel and William Thompson, of Thompson, Fleming & Co.

UNDERTAKERS.

ALEX. AIKEN, UNDERTAKER, No. 166 FOURTH STREET, Pittsburgh, Pa. COFFINS of all kinds, CRAPES, GLOVES, and every description of Funeral Furnishing Goods furnished. Rooms open day and night. Hearse and Carriages furnished. REFERENCES—Rev. David Kerr, D.D., Rev. M. W. Jacobus, D. D., Thomas Ewing, Esq., Jas. S. Miller, Esq.
